STATE OF UTAH
OFFICE OF THE UTAH STATE AUDITOR

TINA M. CANNON
UTAH STATE AUDITOR

March 28, 2024

The Honorable Spencer J. Cox, Governor, State of Utah
The Members of the Utah State Legislature

The Office of the Utah State Auditor is pleased to submit the *Single Audit Report* of federal financial assistance for the State of Utah for the year ended June 30, 2024. The audit was conducted in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

We would like to draw your attention to 18 audit findings related to financial reporting errors, noncompliance with accounting standards, and inadequate oversight of taxpayer funds.

To address these issues, we recommend that the State prioritize competitive salaries, professional development opportunities, and retention strategies for accounting personnel. Increased investment in training and career advancement will help reduce turnover and improve the retention of qualified government employees. Strengthening financial management across all federal programs requires personnel with appropriate accounting expertise, including proficiency in Generally Accepted Accounting Principles (GAAP), Governmental Accounting Standards Board (GASB) regulations, and internal control frameworks. The ability to attract, train, and retain skilled professionals will mitigate the risk of financial misstatements, inefficiencies, and potential mismanagement of public funds.

This report includes the following:

- Reports on compliance and internal control at both the financial statement level and major federal program level, as well as the Schedule of Expenditures of Federal Awards.
- The Schedule of Expenditures of Federal Awards.
- The Schedule of Findings and Questioned Costs, including responses from responsible officials.
- Management's corrective action plans.
- The Summary Schedule of Prior Audit Findings.

Additionally, the **State of Utah's Annual Comprehensive Financial Report** for the fiscal year ended June 30, 2024, along with our audit report dated December 16, 2024, has been issued under separate cover.

We extend our appreciation to the program and accounting personnel of State agencies and institutions, as well as the State Division of Finance, for their professionalism and dedication in administering and accounting for the complexities of federal financial assistance.

Sincerely,

A handwritten signature in black ink that reads "Tina M. Cannon". The signature is written in a cursive, flowing style.

Introduction

Background

The Federal Government requires the State of Utah to have an entity-wide audit of its financial statements and its federal programs as a condition of receiving federal financial assistance. The federally-required audit is commonly referred to as the “single audit.” The single audit focuses on testing compliance with laws and regulations and related internal controls over compliance for major programs. The requirements for performing the single audit are stated in Subpart F of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Scope

Uniform Guidance requires a risk-based approach to auditing federal programs. Under the risk-based approach, programs are classified as Type A or Type B programs based on a dollar level computed in accordance with Uniform Guidance. Type A programs for the State are those programs which exceeded \$27,006,000 in federal awards expended for the fiscal year ended June 30, 2024. All other programs are classified as Type B. For the year ended June 30, 2024, 15 Type A and 3 Type B programs were audited as major programs in accordance with Uniform Guidance requirements. The State had 27 Type A programs and hundreds of Type B programs in fiscal year 2024. (See the Type A vs Type B Programs chart on the following page.)

Presentation

This report includes all required information for the single audit except the State’s financial statements and our report thereon, which were issued under separate cover. A Schedule of Expenditures of Federal Awards by federal agency is presented as required. An optional Schedule sorted by state agency is also presented. The required summary of our audit results, including a list of the major programs audited, is presented on pages 129-30. In addition, management’s corrective action plan and summary schedule of prior audit findings are presented in separate sections of the report.

TYPE A vs TYPE B PROGRAMS
TOTAL FEDERAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2024
(includes loan balances and disbursements)

Type B Programs

TINA M. CANNON
UTAH STATE AUDITOR

Independent Auditor's Report

On Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Members of the Utah State Legislature
and
The Honorable Spencer J. Cox
Governor, State of Utah

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Utah (the State), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the State's basic financial statements and have issued our report thereon dated December 16, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be a material weakness and a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent,

or to detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Finding 2024-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Finding 2024-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The State's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the State's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The State's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to *Utah Code* Title 63G Chapter 2, this report is a matter of public record, and as such, its distribution is not limited.

TINA M. CANNON
UTAH STATE AUDITOR

Independent Auditor's Report

Compliance For Each Major Federal Program; Internal Control Over Compliance Required by *Uniform Guidance*; and Schedule of Expenditures of Federal Awards Required by *Uniform Guidance*

To the Members of the Utah State Legislature
and
The Honorable Spencer J. Cox
Governor, State of Utah

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the State of Utah's (State's) compliance with the types of compliance requirements identified as subject to audit in the *2024 OMB Compliance Supplement* that could have a direct and material effect on each of the State's major federal programs for the year ended June 30, 2024. The State's major federal programs are identified in the Summary of Auditor's Results section of the accompanying "Schedule of Findings and Questioned Costs."

In our opinion, the State of Utah complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the Summary of Auditor's Results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2024.

We did not audit Utah State University's Space Dynamics Laboratory's portion of the Research and Development Cluster, which represents 34 percent of the Research and Development Cluster. This program was audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to compliance requirements for this program, is based solely on the reports of the other auditors.

The State's basic financial statements include the operations of Utah Transit Authority (UTA), a discretely presented component unit. UTA expended \$108.8 million in federal awards for its fiscal year ended December 31, 2023. Its federal awards were audited by other auditors in accordance with the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. The results of that audit are reported separately.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Our responsibilities under those standards and *Uniform Guidance* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the State's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the State's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and to express an opinion on the State's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and *Uniform Guidance* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and *Uniform Guidance*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the State’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the State’s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with *Uniform Guidance*, but not for the purpose of expressing an opinion on the effectiveness of the State’s internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with *Uniform Guidance* and which are identified in 2024-003, 2024-004, 2024-005, 2024-007, 2024-009, 2024-010, 2024-012 through 2024-018 and described in the accompanying “Schedule of Findings and Questioned Costs.” Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the State’s response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The State’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor’s Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we did not identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or to detect and correct, noncompliance with a type of compliance

requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance identified in Findings 2024-003 through 2024-015 and 2024-018 to be significant deficiencies. The accompanying schedule of findings and questioned costs describes each of these significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the State's response to the internal control over compliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The State's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of *Uniform Guidance*. Accordingly, this report is not suitable for any other purpose.

Report on the Schedule of Expenditures of Federal Awards Required by Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Utah, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the State's basic financial statements. We have issued our report thereon, which contained unmodified opinions, dated December 16, 2024.

Our audit was conducted for the purpose of forming opinions on the State of Utah's basic financial statements. The accompanying "Schedule of Expenditures of Federal Awards" is presented for purposes of additional analysis as required by *Uniform Guidance* and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and

reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. The accompanying "Schedule of Expenditures of Federal Awards" does not include UTA's \$108.8 million in federal awards expended for its fiscal year ended December 31, 2023; these expenditures were reported on separately.

In our opinion, based on our audit and the report of other auditors, the "Schedule of Expenditures of Federal Awards" is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Significant Accounting Policies

A. Basis of Presentation – The foregoing Schedule of Expenditures of Federal Awards (SEFA) is a supplementary schedule to the State’s basic financial statements and is presented for purposes of additional analysis. The SEFA is required by and presented in accordance with Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

- Federal Financial Assistance – Pursuant to Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, endowments, or direct appropriations, and also nonmonetary federal assistance, including food stamps, food commodities, vaccines, food vouchers, and surplus property. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the State and Federal Government for which the Federal Government procures tangible goods or services are not considered to be federal financial assistance.
- Assistance Listing – Uniform Guidance requires the SEFA to show the total expenditures for each of the State’s federal financial assistance programs as identified in the Assistance Listing. Federal financial assistance programs and contracts which have not been assigned an Assistance Listing number or, where management has been unable to determine the Assistance Listing number, are identified with the federal agency two-digit prefix in the SEFA.
- Cluster of Programs – Closely related programs with different Assistance Listing numbers which share common compliance requirements are considered a cluster of programs. The following list identifies those State programs that are clusters of Federal programs as defined by the 2024 OMB Compliance Supplement.

- | | |
|------------------------------------|---|
| • Aging Cluster | • Fish and Wildlife Cluster |
| • CCDF Cluster | • FMCSA Cluster |
| • Child Nutrition Cluster | • Food Distribution Cluster |
| • Disability Insurance/SSI Cluster | • Foster Grandparent/Senior Companion Cluster |
| • Economic Development Cluster | • Head Start Cluster |
| • Employment Service Cluster | • Highway Safety Cluster |
| • Federal Transit Cluster | |

-
- Medicaid Cluster
 - Research and Development Programs
 - SNAP Cluster
 - Special Education Cluster (IDEA)
 - Student Financial Assistance Cluster
 - Transit Services Programs Cluster
 - TRIO Cluster
 - WIOA Cluster
- Type A and Type B Programs – Type A programs for the State of Utah are those programs which exceeded \$27,006,000 in federal awards expended for the fiscal year ended June 30, 2024. All other programs are classified as Type B by the State. For the year ended June 30, 2024, certain low-risk Type A programs were not audited and certain Type B programs were audited as required by Uniform Guidance. All Type A and Type B programs that were audited as major programs are listed in the “Schedule of Findings and Questioned Costs, Part I. Summary of Auditor’s Results,” item No. 7.
- B. Reporting Entity** – The State of Utah’s reporting entity includes the primary government and its component units as described in Note 1.A. of the State’s basic financial statements for the year ended June 30, 2024. For purposes of presenting the SEFA, the Utah Transit Authority (UTA), a major discrete component unit, has been excluded from the reporting entity for the fiscal year 2024.
- C. Basis of Accounting** – Federal financial assistance programs included in the SEFA are primarily reported in the State’s basic financial statements as grants and contributions in the entity-wide Statement of Activities and as federal grants and contracts or federal reinsurance in the fund financial statements. Except for items G and L presented in Note 2, the SEFA is presented using the same basis of accounting as that used in reporting the expenditures of the related funds in the State’s basic financial statements. The basis of accounting used for each fund is described in Note 1.C of the State’s basic financial statements.
- Matching Costs – Except as addressed in Note 4 for certain loan programs, the SEFA does not include matching expenditures.
 - Nonmonetary Assistance – The SEFA contains values for several non-monetary assistance programs. The Supplemental Nutrition Assistance Program (SNAP) is presented at the dollar value of food stamp electronic benefit transfers authorized and used by recipients. The programs with commodities and vaccines are presented at the federally assigned value of commodities disbursed by the State. The surplus property program is presented at the estimated fair value of the property distributed. The fair value was estimated to be 23.30% of the property’s original federal acquisition value.
 - Endowment and Commodities – Information on federal endowment and commodities inventory is included in the Notes instead of on the SEFA (see Notes 5 and 6).
 - Loan and Loan Guarantee Programs – The value of new loans and loan guarantees made during the year plus, as applicable, the beginning of the year loan balances and loan

guarantees are included in the SEFA. The outstanding federal loan balances and loan guarantees at the end of the year are included in the Notes instead of on the SEFA (see Note 4).

- **Direct and Indirect (Pass-Through) Federal Financial Assistance** – The majority of the State’s federal financial assistance is received directly from the granting federal agency (i.e., the State is the primary recipient). However, some federal financial assistance, as identified on the SEFA, is passed through a separate entity prior to receipt by the State (i.e., the State is a subrecipient). Although this type of assistance is included on the SEFA noting the “Name of Pass-Through Entity,” it is not reported as federal revenue on the State’s basic financial statements because it was not awarded directly from the Federal Government to the State.
- **Pass-Through Expenditures** – The SEFA includes a column for “Provided to Subrecipients” to identify the amount provided to subrecipients. The State makes subgrants to other entities to carry out some federal programs.
- **Federal Transactions Between State Entities within the Reporting Unit**– Federal funds received by one state grantee entity (including component units) and redistributed to another state grantee entity (i.e., pass through of funds by the primary recipient State grantee entity to a subrecipient state grantee entity) are reported only once in the SEFA as federal expenditures of the primary State grantee entity, with the exception of the American Rescue Plan Act – State and Local Fiscal Recovery Funds (ALN 21.027) grant funds. The SLFRF grant funds are reported only once by the subrecipient state grantee entity. This is to avoid duplication and the overstatement of the aggregate level of the federal financial assistance expended by the State.

Note 2. Reconciliation of Expenditures to Federal Revenues

Expenditures reported in the SEFA agree with the federal revenues reported in the State’s basic financial statements with the following reconciling items:

Total Federal Expenditures from the SEFA		\$9,002,020,403
Reconciling items:		
A.	Federal Capital Contribution for loan programs reported as federal revenue in the State’s Proprietary Fund and Component Unit Financial Statements but not reported on the SEFA:	
	Rural Development Multi-Family Housing Revitalization Demonstration Program (ALN 10.447)	1,000,000
	HOME Investment Partnership Loans (ALN 14.239)	5,857,955

	Housing Trust Fund (ALN 14.275)	2,542,250
B.	Component Unit federal funds expended that were received and recognized as federal revenue in prior years	1,802,196
C.	Federal pass-through funds received and expended from non-federal entities and not reported as federal revenue:	
	Primary Government	(2,243,034)
	Component Units	(144,338,660)
D.	Medical Assistance Program expenditures for fiscal year 2023 reported in fiscal year 2024 (ALN 93.778; see also Note 9)	(10,182,127)
E.	State-funded unemployment insurance expenditures reported on the SEFA which are not reported as federal revenue in the Proprietary Fund Financial Statements.	(302,584,276)
F.	Build America Bonds subsidy is not covered by single audit requirements.	4,494,855
G.	Fund Financial Statements change in accrual of Medicaid pharmacy rebates.	(69,483,356)
H.	Program Income:	
	Program Income for HOME Investment Partnership Loans (14.239)	(5,819,661)
	Program Revenue for Performance Partnership Grants (66.605)	(659,463)
I.	Deferred reimbursement of Indirect Costs	750,000
J.	Loans and loan guarantees made are reported on the SEFA.	
	Primary Government	(118,969,166)
	Component Units	(11,288,989)
K.	Interest earned on advanced CARES Act Funding.	5,696
L.	Fund Financial Statements change in accrual of federal pass-through revenues to local school districts	(115,008,481)
M.	Return of Prior Year ARPA Funds	(1,667,177)
N.	Other miscellaneous reconciling items, net	1,209,887
	Total federal revenue per the Fund Financial Statements	<u>\$8,237,438,852</u>

FEDERAL REVENUE PER THE FUND FINANCIAL STATEMENTS:		
Governmental Funds – Federal Grants and Contracts		\$6,859,413,000
Proprietary Funds – Federal Grants		28,542,000
Component Units – Operating Grants and Contributions		2,636,421,000
Less: Component Units – Operating Grants and Contributions for Utah Transit Authority (excluded from SEFA presentation – see Note 1.B)		<u>(95,582,000)</u>
Total		9,428,794,000
Less amounts included in the Component Unit revenues for State, local, and other grants and contributions		(1,191,355,148)
Total federal revenue per the Fund Financial Statements		<u>\$8,237,438,852</u>

Note 3. De Minimis Cost Rate

The SEFA includes a portion of costs associated with general activities which are allocated to federal financial assistance programs under negotiated formulas commonly referred to as indirect cost rates. Four State agencies (the Utah Office of the Attorney General, the Department of Commerce, the Department of Natural Resources, and the Utah State Tax Commission) and two component units (Bridgerland Technical College and Southwest Technical College) use the 10 percent de minimis cost rate.

Note 4. Federal Loan Programs and Loan Guarantees

Outstanding federal loan balances and loan guarantees:

	Assistance Listing Number	Ending Balance June 30, 2024
Rural Housing Preservation Loans	10.433	\$ 988,326
Rural Development Loans	10.447	4,537,186
Rental Housing Rehabilitation Loans	14.230	216,764
HOME Investment Partnerships Program Loans	14.239	91,452,115
Housing Trust Fund Loans	14.275	17,917,220
Coronavirus Relief Fund	21.019	186,250
State Energy Program Loans	81.041	352,728
Perkins Loan Program	84.038	4,359,631
Nurse Faculty Loan Program (NFLP)	93.264	1,033,431
Health Professions Student Loans	93.342	1,804,971
Nursing Student Loans	93.364	112,765
		\$122,961,387

Any administrative allowances expended under these programs during the year are included in the SEFA. Also included in the SEFA, as required by Uniform Guidance, is the value of new loans and loan guarantees made during the year plus, as applicable, the beginning of the year loan balances and loan guarantees.

Some of the above loan programs require matching funds from the State. The HOME Loan Program requires a 25 percent match; the loans made with the match money are separate loans, accounted for separately, and are not included in the above numbers. Other loan programs above require a 0 to 25 percent match. The above numbers for these loan programs include the State match.

Note 5. Federal Endowment

The Division of Arts & Museums of the Utah Department of Cultural and Community Engagement maintains an endowment from the U.S. National Endowment for the Arts. The endowment is used to provide support for the Utah Arts Endowment Fund and was created with \$600,000 of federal funds on September 26, 1991. Only the interest from the endowment is used to make grants to individual artists and ethnic art groups. The Utah Arts Endowment Fund also accepts donations that are used to

make grants. During the year ended June 30, 2024, interest earnings and contributions were \$47,086 and no grants were issued. The Utah Arts Endowment Fund balance at June 30, 2024, which comprises the federal endowment and donations, was \$960,889.

Weber State University maintains an endowment from the U.S. Department of Education (AL #84.031). The endowment addresses the needs of students that have been placed in developmental mathematics and developmental English. It was created June 30, 2019, for 20 years. The U.S. Department of Education has contributed \$400,000 and Weber State University has contributed \$400,000. The endowment fund balance of both federal and match funds at June 30, 2024, was \$874,812.

Note 6. Nonmonetary Assistance Inventory

As described in Note 1, nonmonetary assistance is reported in the SEFA based on the amount disbursed. As of June 30, 2024, the following inventories of nonmonetary assistance existed:

Assistance	Inventory Balance June 30, 2024
Food Commodities	\$5,391,781
Surplus Property	\$33,490

Note 7. Women, Infant, and Children Program Food Rebates

During the fiscal year ended June 30, 2024, the Utah Department of Health and Human Services received \$8,505,766 of cash rebates from infant formula manufacturers on the sale of formula to participants in the Women, Infants and Children (WIC) Program (Assistance Listing #10.557). Rebate contracts with infant formula manufacturers are authorized by federal regulation 7 CFR 246.16a as a cost containment measure.

Rebates are reported as a reduction of expenditures previously incurred for WIC food benefit costs.

The cash rebates received in the fiscal year ended June 30, 2024, correspond to an annual average food benefit for 9,511 persons.

Note 8. Education Stabilization Funds (Assistance Listing #84.425)

Education Stabilization Fund (ESF)		
Governor's Emergency Education Relief (GEER)	84.425C	\$2,244,205
Elementary and Secondary School Emergency Relief (ESSER)	84.425D	31,625,876
Emergency Assistance to Non-Public Schools (EANS)	84.425R	9,422,774
American Rescue Plan Elementary and Secondary School Emergency Relief (ARP ESSER)	84.425U	202,577,578
American Rescue Plan Emergency Assistance to Non-Public Schools (ARP EANS)	84.425V	6,610,544
American Rescue Plan Elementary and Secondary School Emergency Relief (ARP ESSER) - Homeless Children and Youth	84.425W	<u>1,948,519</u>
Subtotal ESF		<u>\$254,429,495</u>
Higher Education Emergency Relief Fund (HEERF)		
Student Aid Portion	84.425E	\$125,163
Institutional Portion	84.425F	<u>(2,371,965)</u>
Subtotal HEERF		<u>(2,246,802)</u>
Total Education Stabilization Funds AL#84.425		<u>\$252,182,693</u>

Note 9. Medical Assistance Program Expenditures for Fiscal Year 2023 (ALN 93.778)

During fiscal year 2024, the Utah Department of Health and Human Services (DHHS) identified certain expenditures processed through the newly implemented provider claims system (PRISM) that were paid entirely with State funds in fiscal year 2023, even though a portion should have been covered by the Medical Assistance Program (ALN 93.778). As a result, these expenditures were not reported in the fiscal year 2023 Schedule of Expenditures of Federal Awards (SEFA). This amount has been included in the fiscal year 2024 SEFA to report the actual amounts expended for the program. The correction does not affect compliance with federal program requirements.

DHHS received federal funds for these expenditures during fiscal year 2024. However, since the original expenses were incurred in fiscal year 2023, the revenue received in fiscal year 2024 is also classified as 2023 revenue.

Schedule of Findings & Questioned Costs

Part I. Summary of Auditor’s Results

Financial Statements:	
1. Type of auditor’s report issued:	<i>Unmodified</i>
2. Internal control over financial reporting:	
<ul style="list-style-type: none"> Material weaknesses identified? (2024-001) 	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
<ul style="list-style-type: none"> Significant deficiencies identified? (2024-002) 	<input checked="" type="checkbox"/> yes <input type="checkbox"/> none reported
3. Noncompliance material to financial statements noted?	<input type="checkbox"/> yes <input checked="" type="checkbox"/> no
Federal Awards	
4. Internal control over major programs	
<ul style="list-style-type: none"> Material weaknesses identified? 	<input type="checkbox"/> yes <input checked="" type="checkbox"/> no
<i>The material weaknesses relate to the following programs: N/A</i>	
<ul style="list-style-type: none"> Significant deficiencies identified? 	<input checked="" type="checkbox"/> yes <input type="checkbox"/> none reported
5. Type of auditor’s report issued on compliance for major programs:	<i>Unmodified for all major programs</i>
6. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a) of the Uniform Guidance.	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no

7. Identification of major programs:	
<p><u>ALN</u></p> <p>10.557</p> <p>12.401</p> <p>14.275*</p> <p>15.605, 15.611</p> <p>21.026</p> <p>21.027</p> <p>84.010</p> <p>84.425</p> <p>84.367*</p> <p>93.268</p> <p>93.323</p> <p>93.558</p> <p>93.563</p> <p>93.566*</p> <p>93.658</p> <p>93.767</p> <p>93.775, 93.777, 93.778</p> <p>Various</p> <p><i>* Type B Program</i></p>	<p><u>Grant Name</u></p> <p>Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)</p> <p>Military Operations & Maintenance</p> <p>Housing Trust Fund Loans</p> <p>Fish & Wildlife Cluster</p> <p>(COVID-19) Homeowner’s Assistance Fund</p> <p>(COVID-19) State and Local Fiscal Recovery Funds</p> <p>Title I Grants to Local Educational Agencies</p> <p>(COVID-19) Education Stabilization Fund</p> <p>Supporting Effective Instruction State Grants</p> <p>Immunization Cooperative Agreements</p> <p>Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)</p> <p>Temporary Assistance for Needy Families (TANF)</p> <p>Child Support Enforcement</p> <p>Refugee and Entrant Assistance</p> <p>Foster Care Title IV-E</p> <p>Children’s Health Insurance Program</p> <p>Medicaid Cluster (MED)</p> <p>Research and Development (R&D) Cluster</p>
8. Dollar threshold used to distinguish between Type A and Type B programs:	\$27,006,000
9. Auditee qualified as low-risk auditee?	<input type="checkbox"/> yes <input checked="" type="checkbox"/> no

Part II. Findings Related to the Financial Statements

2024-001. Untimely Reconciliations at DABS Led to Audit Adjustments Proposed for State's ACFR

(Finding Type: Material Weakness)

The Office of the Utah State Auditor (OSA) issued the Department of Alcoholic Beverage Services (DABS) a finding on May 9, 2024 for its operations not being recorded in the State's accounting system (FINET) in a timely manner (see OSA Report 24-01). DABS is reported as a major proprietary fund for the State's Annual Comprehensive Financial Report (ACFR). DABS had not performed reconciliations of its sub-accounting system (D365) to FINET to ensure the two systems agreed for financial reporting and oversight purposes. When the OSA issued this finding, DABS had recorded all fiscal year (FY) 2024 data and completed a reconciliation between D365 and FINET for July 2023 data only. DABS also performed preliminary reconciliations for the remainder of the fiscal year, but it was still in the process of resolving differences. Consequently, DABS had not completed other reconciliations, including bank reconciliations at that time.

By December 2024, DABS was still unable to reconcile the two systems and resolve differences, leaving unreconciled inaccurate data in FINET for ACFR reporting. As a result, auditors proposed the following corrections to properly present DABS activity in the ACFR:

- a. \$19.4 million reduction to FY 2023 Unrestricted Net Position and FY 2024 Purchases, Materials, and Services for Resale expense to account for FY 2023 activity left unreconciled at the end of FY 2023; the error was detected and corrected in FY 2024 with a reduction to the prior year liquor profit transfer.
- b. \$17.8 million reduction to FY 2024 Sales and Charges for Services revenue and Purchases, Materials, and Services for Resale expense to remove type 5 packaging agency revenue and expenses that do not belong to DABS; this error and correction had no effect on DABS' net position.

DABS' inability to reconcile the two systems stems from the complexities of tracking financial data at different levels of detail and the difference between how D365 and FINET record the data. If DABS cannot reconcile the two systems, it cannot ensure its financial activities are appropriately or accurately recorded in FINET for ACFR purposes. This could impact the annual statutory liquor profit transfer, preparation of the ACFR, and compliance with State bond compliance requirements.

Recommendation:

We recommend DABS ensure all data is recorded in FINET and reconciled in a timely manner and resolve interface issues between systems.

DABS' Response:

The Department of Alcoholic Beverage Services (DABS) acknowledges the importance of the audit finding related to the reconciliation between our sub-accounting system (D365) and the State's accounting system (FINET). We understand the significance of accurate and timely financial reporting for the State's Annual Comprehensive Financial Report (ACFR) and are fully committed to resolving the identified issues. DABS has already taken steps to address the situation, including leadership changes within the Division of Finance and initiating a comprehensive review process.

To ensure improvements, DABS has actively engaged with stakeholders to gather valuable feedback and identify the root causes of the discrepancies. We are dedicated to resolving these issues and have already started implementing corrective actions. This includes enhanced reconciliation procedures and ongoing efforts to streamline the data tracking process between D365 and FINET. DABS is committed to ensuring the accuracy of our financial reporting and will continue to work diligently towards full compliance with all State requirements.

2024-002. Errors in Financial Reporting Preparation Process**(Finding Type: Significant Deficiency)**

The Division of State Finance (Finance) within the Department of Government Operations does not have adequate internal controls to ensure it prepares the *State's Annual Comprehensive Financial Report (ACFR)* in accordance with generally accepted accounting principles (GAAP). Auditors detected errors in information provided to and prepared by Finance during the ACFR preparation process. As a result, multiple material adjustments were needed to fairly present the State's financial activity.

Financial Activity	Adjustment Description	Adjustment Total	Statement/Area(s) Impacted
Investments and Related Income	Reduction of External Investment Pool investment income and Pool activity—no net position effect	\$904.6 million	Fiduciary Custodial Funds
	Correct double counting of investment assets and income by the Treasurer's Office—no net position / fund balance effect	\$40 million	Entity-wide Governmental Activities General Fund

Financial Activity	Adjustment Description	Adjustment Total	Statement/Area(s) Impacted
			Nonmajor Governmental Funds Entity-wide Business-type Activities Employers' Reinsurance Fund Fiduciary Pension and Other Employee Benefit Trust Funds Fiduciary Private Purpose Trust Funds
Government-wide Conversion and Consolidation	Correction to reclassify SITFO Net Position consolidation	\$228.012 million	Entity-wide Governmental Activities
	Reclassification of Program Revenues for Health & Human Services, Environmental Quality, Higher Education, and General Government	\$84.8 million	Entity-wide Governmental Activities
	Correction of Internal Service Fund revenues and expenses conversion to Governmental Activities revenues and expenses—no net position effect	\$51.6 million	Entity-wide Governmental Activities
Special Revenue Funds	Reclassify fund activity that did not meet GAAP special revenue fund criteria	\$40 million	General Fund Nonmajor Governmental Funds
Construction and Capital Assets	Inclusion of Public Education and Higher Education construction	\$66.6 million	Entity-wide Governmental Activities

Financial Activity	Adjustment Description	Adjustment Total	Statement/Area(s) Impacted
	completion activity in fund and entity-wide reporting		Nonmajor Governmental Funds
	Record partial allocation of depreciation expense by function	\$29.3 million	Entity-wide Governmental Activities
	Correct double counting of construction activity between Alcoholic Beverage Services and Capital Projects funds—no net position / fund balance effect	\$7.0 million	Entity-wide Governmental Activities Nonmajor Governmental Funds Entity-wide Business-type Activities Alcoholic Beverage Services Fund

Finance experienced staff turnover and adjustments to workflows, resulting in knowledge gaps and process changes. To ensure the ACFR materially reflects the State’s financial position, Finance should perform sufficient reviews and analyses of information prepared for ACFR reporting, especially during process and personnel changes. Inadequate controls over the preparation processes may result in undetected material misstatements in the ACFR.

Recommendation:

We recommend Finance establish, document, and sufficiently perform internal controls to ensure information prepared by State agencies or by Finance materially reflects the State’s financial position.

DGO’s Response:

The Department agrees with this recommendation. Many of the identified issues were reclassification errors that did not impact the State’s net position, and we have enhanced our review processes to further minimize the likelihood of similar issues in the future. State Finance maintains a robust system of internal controls designed to ensure the accuracy and integrity of financial reporting. These controls are risk-based and structured to address material risks while balancing efficiency and practicality. As with any large and complex financial operation, changes in personnel and processes present opportunities for refinement and improvement. While some areas required adjustments or additional review steps, our overall financial controls remain effective in ensuring the State’s financial position is accurately presented.

Part III. Findings and Questioned Costs for Federal Awards

U.S. Department of Health and Human Services

2024-003. Incomplete Pharmacy Rebate Reporting and Invoicing

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: 93.778 Medicaid Assistance Program

Federal Award Number: Various

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

DHHS did not report all required pharmacy rebate information or send all rebate invoices to manufacturers within the statutory timeframe. Federal regulations (42 USC 1396r-8) require DHHS to report drug utilization data, including those in the managed care plans, to drug manufacturers and to invoice for rebates within 60 days after the end of each rebate period (typically a calendar quarter). DHHS contracts with a third-party organization to perform these processes of reporting and invoicing.

After DHHS implemented a new claims system (PRISM) in April 2023, certain data would not properly interface with the third party's system. Without receiving all the data, the third party was not able to report this data and send rebate invoices to the manufacturers. As a result, DHHS was not compliant with the requirements. Furthermore, DHHS did not communicate these issues to the Centers for Medicare and Medicaid Services (CMS) or obtain a waiver for the requirements.

The unreported data relates to an estimated \$86.3 million in rebates manufacturers owed DHHS in fiscal year 2024. DHHS plans to request these payments once the interface issues are resolved.

Recommendations:

We recommend that DHHS ensure:

- Interface issues with third-party organization system are resolved,
- Invoice and collect the fiscal year 2024 unbilled rebates,
- All required drug utilization data is reported to manufacturers within required time and rebates are invoiced in a timely manner, and
- Any issues or delays are promptly reported to CMS.

DHHS' Response:

The Department agrees with this recommendation.

2024-004. Inadequate Procedures to Identify Healthcare Providers with Expired Licenses

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: 93.775, 93.777, 93.778 Medicaid Assistance Program
93.767 Children's Health Insurance Program

Federal Award Number: Various

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

DHHS did not ensure all eligible healthcare providers had active professional licenses. DHHS uses a provider eligibility system (PRISM) to track healthcare providers eligibility and to ensure only eligible providers received claim reimbursement. We sampled 68 providers in PRISM that were listed as eligible and noted that five of these providers had expired licenses. All 68 sampled providers are eligible for the Medicaid program, while 42 of the 68 sampled providers are also eligible for the Children's Health Insurance Program (CHIP). All five providers with expired licenses were Medicaid eligible, and two of them were also CHIP eligible.

Federal regulations (42 CFR 455.412) require that DHHS "must confirm that [a] provider's license has not expired." DHHS works with the Division of Professional Licensing (DOPL) to track which providers have active licenses. On a weekly basis DOPL provides DHHS with a change report showing which licenses expired that week. DHHS then marks the associated providers as ineligible in PRISM. This process adequately addresses most expired licenses but was insufficient to detect the following issues.

- Three providers were licensed in states other than Utah. DHHS allows out-of-state providers under certain circumstances, but because these providers were licensed in other states, they were not tracked by DOPL. DHHS did not have a process to check out-of-state licenses. These licenses expired between June 2017 and January 2022.
- One provider had a license that expired during the COVID-19 Public Health Emergency (PHE). As instructed by CMS, DHHS temporarily ceased removing any providers during the PHE, and since the DOPL reports only cover changes for a weekly period, DHHS did not detect the issue at the end of the PHE. The provider's license had been expired since January 2022.

- One provider had initially been granted eligibility in the DHHS provider eligibility legacy system that preceded PRISM. When DHHS transferred provider files from the legacy system into PRISM in 2016, the associated licenses were not entered into PRISM until the first revalidation period. This provider was scheduled for a revalidation assessment in February 2021. However, this was extended to August 2024 due to the PHE. As a result, this provider's license information had not yet been entered into PRISM and the change reports did not detect the issue. This license expired in January 2016.

DHHS may have eventually detected these expired licenses during a revalidation process, but PHE-related extensions greatly increased the period of time before detection. PRISM has a function to detect and remove providers with expiring licenses, but DHHS did not use this function due to technical issues.

Without an adequate system to detect license expiration, program funds may be paid to ineligible providers. DHHS did not reimburse any claims to these providers with expired licenses during fiscal year 2024.

Recommendation:

We recommend that DHHS ensure all healthcare providers listed as eligible have active professional licenses.

DHHS' Response:

The Department agrees with this recommendation.

2024-005. Required Health and Safety Surveys Not Performed Within Statutory Timeline

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: 93.778 Medicaid Assistance Program

Federal Award Number: Various

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: 2023-008

DHHS did not perform required Health and Safety Surveys within required timeline. Federal regulations (42 CFR 442.15) require DHHS to conduct medical health and safety surveys for nursing and

intermediate care facilities at least every 15 months. DHHS is also required (42 CFR 442.109) to ensure the statewide average interval between surveys is 12 months or less. We sampled 16 facilities and noted that DHHS had not conducted the required surveys within the statutory timeframe for 11 facilities. The statewide average interval was also greater than the allowed timeframe. The PHE and resulting relaxed requirements contributed to a backlog of surveys. Due to staffing shortages, DHHS has not yet resolved the backlog. If DHHS does not conduct these surveys, DHHS may be unaware if facilities do not comply with health and safety requirements, which could potentially endanger patients and cause program funds to be given to noncompliant facilities.

Recommendation:

We recommend that DHHS address the current survey backlog and conduct future surveys in a timely manner.

DHHS' Response:

The Department agrees with this recommendation.

2024-006. TANF ACF-204 Report Does Not Match Supporting Documentation

(Finding Type: Significant Deficiency)

Federal Agency: Department of Health and Human Services
 Assistance Listing Number and Title: 93.558 Temporary Assistance for Needy Families
 Federal Award Number: Various
 Questioned Costs: N/A
 Pass-through Entity: N/A
 Prior Year Single Audit Report Finding Number: N/A

Data elements for the Temporary Assistance for Needy Families (TANF) program submitted by DWS did not match the supporting documentation. The Annual Report (ACF-204) for the year ended September 30, 2023, had the following errors:

Table 2. TANF Errors by Report line

ACF-204 Report Line	Number Reported	Correct Number	Number Overreported / (Under)
---------------------	-----------------	----------------	-------------------------------

Attachment B2, Line 6 (Total State Expenditures for Fiscal Year) and 7 (Total State MOE Expenditures for Fiscal Year)	\$475,145	\$475,045	\$100
Attachment B3, Line 11 (Total Program Expenditures in FY 1995)	\$0	\$6,937,582	(\$6,937,582)

These errors were caused by comparing the TANF data to incorrect supporting information in the preparation and not following the report instructions to prepare the report. The report review did not detect these errors. Federal regulations (2 CFR 200.303) require entities to “establish and maintain effective internal controls [procedures]...that provide reasonable assurance that the... entity is managing [federal program] in compliance with... terms and conditions of the federal award.” By not ensuring Reports match supporting information or not following report instructions, DWS is at risk of submitting inaccurate reports and failing to meet federal funding requirements.

Recommendation:

We recommend that DWS prepare and review all report lines to correct supporting documentation to ensure accuracy prior to submitting the reports.

DWS’s Response:

DWS agrees with the finding.

2024-007. Refugee Grant Expenditures Charged Outside Award Period

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: 93.566 Refugee and Entrant Assistance

Federal Award Number: 2401UTRCMA-02

Questioned Costs: \$39,297

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

We identified 8 of 33 (24%) transactions totaling \$39,297 that were charged to the Refugee Cash Medical Assistance (CMA) award for federal fiscal year 2024 before the award began on October 1, 2023, the beginning of the award’s period of performance for allowable costs. 45 CFR 75.309 states

that “a non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance.” These costs were improperly allocated to the CMA award during the report preparation process and DWS’s review of the allocated transactions did not prevent or detect and correct these expenditures to ensure they were charged to the proper award period based on when the costs were incurred. Expenditures charged outside of an award period are considered unallowable for that award and could lead to improper reporting of expenditures to the federal awarding agency.

Recommendation:

We recommend that DWS implement a more detailed and thorough review of incurred and paid costs to ensure expenditures are charged to an appropriate award during the allowable award period.

DWS’s Response:

DWS agrees with the finding.

2024-008. Non-Payroll Expenditures Did Not Receive Adequate Reviews**(Finding Type: Significant Deficiency, Other)**

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: Research and Development Cluster (Various ALNs)

Federal Award Number: Various

Questioned Costs: None

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

The University of Utah (University) did not perform adequate reviews on three of 40 non-payroll expenditures transactions selected for review from the Research and Development (R&D) Cluster projects.

According to the University’s policies, non-payroll expenditures are required to have one or both of the following controls procedures to be performed:

- Review and approval of individual expenditures by the R&D project’s Principal Investigator (PI), or other appropriate personnel, at the time of purchase.
- Timely review and approval of monthly Management Reports by the R&D project’s PI, Account Executive (AE), or a designated alternate. Pursuant to University Policy 3-003, this “Evidence of Review should ordinarily be completed within one month of receipt of the management reports.”

In addition, 2 CFR 200.303 requires non-federal entities to establish, document, and maintain effective internal controls to provide reasonable assurance that it manages the federal awards in compliance with federal requirements.

Due to a lack of understanding of the importance of reviewing expenditures, as well as travel or technological issues, two expenditures were not reviewed in accordance with the University's policy. Additionally, a clerical accounting error caused the third expenditure to be recorded in the wrong accounting period and it was not effectively reviewed to prevent the error.

Without implementing proper controls, expenditures for unallowable activities or costs are more likely to be charged to federally funded projects without being detected and corrected.

Recommendations:

We recommend that the R&D project's PIs perform the following as required by the University's policy:

- Review management reports and complete the evidence of review (EOR) process within the allotted time frame; and
- Effectively perform review and approval of individual transactions.

University's Response:

The University agrees with the finding.

2024-009. Unallowable Cash Medical Assistance Benefit Issuances

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Health and Human Services

Assistance Listing Number and Title: 93.566 Refugee and Entrant Assistance

Federal Award Number:

Questioned Costs: \$3,583

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

In our review of 40 cash medical assistance (CMA) benefit payments for the Refugee and Entrant Assistance Program, we noted the following errors:

	Over / (Under) Payment Amount including Directly Associated Payments	Count of Errors
Case Information Not Properly Verified Before Benefit Issuance	\$488	2
Potential Overpayment Identified but Overpayment Process Not Initiated	2,215	1
Improper Inclusion of Exempt Income in Benefit Issuance Calculation	(34)	1
CMA Funding Used for TANF Case Benefit Issuance, Unable to Verify Issuance Was Reversed and Reissued from Correct Funding Source	914	1
Total Errors	\$3,583	5

These errors occurred due to a lack of effective internal control over the case management and its iterative eligibility determinations, and Eligibility Workers incorrectly evaluating and entering updated case information into the eREP System. 2 CFR 200.303 requires that “the non-federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.” If new information is discovered for a case but not properly evaluated, it could lead to further overpayments and underpayments and the misuse of federal funds.

Recommendation:

We recommend that DWS strengthen their internal control environment and continue to provide training and support to their Eligibility Workers to ensure that case information is properly evaluated and correctly entered into the eREP System.

DWS’s Response:

DWS agrees with the finding.

U.S. Department of Housing and Urban Development

2024-010. HTF Project Does Not Meet Eligible Income Requirements

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of Housing and Urban Development

Assistance Listing Number and Title: 14.275 Housing Trust Fund

Federal Award Number: Various

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

During eligibility reviews, DWS did not detect that a tenant in a Housing Trust Fund (HTF) assisted unit did not meet the income requirements to occupy the HTF-assisted unit. This error occurred because the tenant's income was entered as \$17,115 instead of \$18,115 actual reported income, which exceeds the income limitation for this location of \$17,400. The review by DWS also did not identify that this apartment complex did not have the specified one, two, and three-bedroom units available for HTF-assisted occupancy as outlined by the deed restrictions for this HTF-constructed apartment complex. Borrowers that are not in compliance with these deed restrictions could face DWS opting to call and make payable in full the HTF loan.

2 CFR 200.303 requires that "the non-federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Without effective internal controls, ineligible tenants may be allowed to occupy HTF-assisted housing, thus limiting the availability of units for eligible extremely low-income families.

Recommendation:

We recommend that DWS strengthen its internal control to better determine that all HTF assisted housing units contain only income eligible tenants.

DWS's Response:

DWS agrees with the finding.

2024-011. DWS-Adopted Guidelines Not Followed When Evaluating an Applicant Housing Project

(Finding Type: Significant Deficiency, Other)

Federal Agency: Department of Housing and Urban Development

Assistance Listing Number and Title: 14.275 Housing Trust Fund

Federal Award Number: Various

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

DWS did not adhere to its adopted guidelines when assessing a housing project's application for funding from the Housing Trust Fund (HTF). Per 24 CFR § 92.250, "Before committing funds to a project, the participating jurisdiction must evaluate the project in accordance with guidelines that it has adopted." The Olene Walker Housing Loan Fund (OWHLF) Board approved the project for funding on April 28, 2022. Pursuant to OWHLF 2022 guidelines, DWS should have obtained with the project's application "either certified or independently-audited financial statements for the developer." DWS relied on a developer's compilation report that does not provide any certification, assurance, or an independent opinion on audited financial statements. Without a clear definition of certified financial reporting, DWS personnel evaluating the project believed that the compilation report containing the developer's financial statements was certified. If DWS does not follow its own guidelines to receive and review certified or audited financial statements, the OWHLF Board may place greater reliance on the developer's financial statements when considering whether to approve HTF funding.

Recommendation:

We recommend that DWS adhere to its adopted guidelines, clarify its guidelines regarding certified financial statements, and obtain and review all necessary documentation when evaluating projects' applications for approval by the OWHLF.

DWS's Response:

DWS agrees with the finding.

*U.S. Department of the Treasury***2024-012. Inadequate SLFRF Subrecipient Monitoring****(Finding Type: Significant Deficiency, Reportable Noncompliance)**

Federal Agency: Department of the Treasury

Assistance Listing Number and Title: 21.027 Coronavirus State and Local Fiscal Recovery Funds

Federal Award Number: N/A

Questioned Costs: \$0

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: 2023-017, 2022-026

The Governor's Office of Planning and Budget (GOPB), the prime recipient for the State and Local Fiscal Recovery Funds (SLFRF), and state agencies, including the Department of Natural Resources (DNR), and the Department of Environmental Quality (DEQ) did not adequately fulfill their subrecipient monitoring responsibilities.

Communication of Key Federal Grant Information, Risk Evaluation, and Compliance Monitoring

DNR and DEQ did not have adequate written policies and procedures, properly communicate key federal grant information, or evaluate subrecipient-risk for noncompliance to guide the monitoring for eight of the 11 selected subrecipients (two at DEQ and six at DNR), as required by 2 CFR 200.332(a) and 2 CFR 200.332(b) and (d).

Subrecipient Single Audit Report Reviews

For three of the four subrecipients selected (one at DEQ and two at DNR), DNR and DEQ did not adequately review their subrecipients' Single Audit reports and findings to assess whether the subrecipients spent the funds appropriately. The agencies also did not have adequate controls to ensure their subrecipients' Single Audit reports were monitored according to federal requirements. *Uniform Guidance* (2 CFR 200.332(d)(2)) requires a review of subrecipient Single Audit reports when they become available, as well as a follow-up to address any findings related to the applicable program.

The errors noted above were a result of the agencies not fully understanding the nature of the funds they received, the extent of compliance requirements, and the nature of the subaward agreement relationships. DNR and DEQ have taken steps to implement controls over these areas but did not have the new procedures in place as of year-end.

Failure to establish internal controls, adequately communicate key federal program information to subrecipients, and perform risk evaluation and monitoring procedures may result in the subrecipient's noncompliance with federal fund requirements and potential misuse of federal funds.

Recommendations:

We recommend that GOPB, DNR, and DEQ do the following:

1. Gain an understanding of the subrecipient requirements and establish internal controls to ensure compliance with these requirements;
2. Establish written policies and procedures to ensure compliance with subrecipient monitoring requirements;
3. Communicate all required federal award information to sub-recipients,
4. Evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward; and,
5. Monitor subrecipients according to their assessed risk and as required by 2 CFR 200.332.

DNR's Response:

The Department of Natural Resources agrees with this finding. We were originally audited by the State Auditor's Office in the summer of 2023 regarding our compliance with overseeing ARPA funding. In March 2024 we received findings from that audit. In May 2024 we were notified of an SLFRF audit. All of the new audit samples selected in the SLFRF audit were from before we received the results of the initial ARPA audit in March 2024. We have made improvements to our SLFRF subrecipient monitoring since receiving the initial audit recommendations in March 2024. We intend to make additional improvements based on these subsequent audit recommendations and our own internal reviews.

DEQ's Response:

DEQ agrees with the finding. DEQ does have procedures for sub-recipient monitoring, including risk assessments and review of Single Audit reports; however, with the ARPA funds in question, improvements can be made to ensure that sub-recipient monitoring is performed timely, documented, and complies with federal requirements.

GOPB's Response:

GOPB, DEQ and DNR agree with the finding. GOPB has proactively supported state agencies with their subrecipient monitoring responsibilities. On May 15, 2023, GOPB emailed the current version of its ARPA Reference Guide to all state agencies administering ARPA SLFRF funds. This guide provides a comprehensive overview of the necessary compliance documents, including the State Agency Checklist, guidelines for SLFRF administrative and indirect costs, Single Audit compliance standards, internal controls references, risk assessment protocols, and subrecipient monitoring checklists. Following this, GOPB hosted federal funds compliance training for agency financial management staff

on May 31 and June 6, 2023, which covered key aspects of SLFRF oversight, such as the ARPA Reference Guide, Unique Entity ID (UEI) requirements, FINET ARPA coding, and compliance procedures. GOPB also reviewed ARPA SLFRF frequently asked question 13.15 to document the requirements of 2 C.F.R. Part 200 that apply to non-revenue replacement projects and those that do not apply to revenue replacement projects. GOPB has also developed and implemented an APRA SLFRF Monitoring Plan to review agency compliance with policies, procedures, and subrecipient monitoring requirements.

2024-013. Misunderstanding Caused Improper Spending of Coronavirus State and Local Fiscal Recovery Funds (SLFRF)

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Department of the Treasury

Assistance Listing Number and Title: 21.027 Coronavirus State and Local Fiscal Recovery Funds

Federal Award Number: N/A

Questioned Costs: \$559,900

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

The Governor's Office of Economic Opportunity (GOEO) erroneously recorded \$559,900 of expenditures to the SLFRF program. Sections 602(c)(1)(A-D) of the Social Security Act establish which types of projects recipients may use these funds for. The expended funds did not meet any of the criteria of those sections, and we question these costs. After bringing this error to GOEO's attention, GOEO made an adjustment in fiscal year 2024 to reverse the expenditures so that \$559,900 is no longer charged to the SLFRF program.

This error occurred due to an inexperienced financial analyst using incorrect account coding for these transactions. The individual who normally approves these types of transactions was unable to review these transactions to detect and correct the coding error, and the substitute individual who performed the review did not detect and correct the error before approving the transactions.

Recommendation:

To ensure expenditures charged to SLFRF projects comply with requirements, we recommend GOEO:

1. Improve its oversight and monitoring of expenditures.
2. Establish effective internal controls.

GOEO's Response:

GOEO agrees with the finding. These expenditures are no longer recorded as charged to the SLRF program.

GOPB's Response:

GOPB agrees with the finding. We acknowledge that GOEO mistakenly recorded \$559,900 of expenditures to the SLFRF program and identified the same error during the quarterly expenditure review process. Upon identifying this error, GOPB promptly addressed the issue with GOEO so that expenditures could be corrected in the financial system before the end of the FY 2024 closeout and the July 2024 quarterly ARPA SLFRF report.

2024-014. Errors in Coronavirus SLFRF Quarterly Reports**(Finding Type: Significant Deficiency, Reportable Noncompliance)**

Federal Agency: Department of the Treasury

Assistance Listing Number and Title: 21.027 Coronavirus State and Local Fiscal Recovery Funds

Federal Award Number: N/A

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: 2023-018

GOPB did not accurately prepare and submit SLFRF quarterly financial reports. We noted the following discrepancies in the two quarterly reports tested:

- GOPB did not report the required written justification for projects that have capital expenditures greater than \$10 million to the Treasury. We identified one project (of the 20 sampled) above the \$10 million capital expenditures threshold that had written justification on file but had not been reported to the Treasury at the time of our testwork. GOPB did not submit the written justification due to confusion regarding the application of the standard, which resulted in the department being noncompliant with the reporting requirement.
- GOPB could not provide sufficient documentation to justify the reported "Total Obligations" for three of the 20 projects sampled. They relied on Departmental information and not source data (signed contracts, grant agreements, etc.). The difference in these amounts resulted in obligations being overreported on the January 2024 report by \$1,445,437 and overreported on the April 2024 report by \$3,107,197.

The Treasury's *Compliance and Reporting Guidance* for SLFRF outlines that recipients "should appropriately maintain accounting records for compiling and reporting accurate, compliant financial data, in accordance with appropriate accounting standards and principles," as well as other key reporting requirements for capital expenditures.

Recommendation:

We recommend GOPB submit the written justification of the capital expenditures for projects over \$10 million to the Treasury and rely on source data to accurately report required information on the quarterly reports.

GOPB's Response:

GOPB agrees with the finding. In April 2024, GOPB hired an additional fiscal grant manager to primarily focus on documenting and reconciling obligations and expenditures. As part of this process, GOPB is collecting and reconciling contracts, grant agreements, interagency agreements, and other obligating documents for ARPA SLFRF projects.

2024-015. Reported Number of Homeowners Overstated**(Finding Type: Significant Deficiency, Reportable Noncompliance)**

Federal Agency: Department of the Treasury

Assistance Listing Number and Title: 21.026 COVID-19 Homeowner Assistance Fund

Federal Award Number: HAFP-0100

Questioned Costs: N/A

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: N/A

The number of unique homeowners classified at or below 100% area median income (AMI) was overreported for all Homeowner Assistance Fund (HAF) quarterly reports submitted to the Treasury. For the two reports that we looked at, the errors were as follows:

Table 1. Impact of Errors by Report

Quarter Ended	Number Reported	Correct Number	Number Overreported	Percentage Overreported
June 30, 2023	961	839	122	15%
March 31, 2024	1620	1363	257	19%

This error occurred as a result of misinterpreting information received from third parties used to fill out the report and a misunderstanding by both the preparer and reviewer of report requirements and thresholds. To be compliant with federal standards (2CFR 200.303), DWS “must establish and maintain effective internal controls over the award.” Compliance cannot be established without a thorough understanding of the requirements and how the data from third parties is aggregated. Without that understanding and proper reviews to detect and correct errors, DWS may continue to report incorrect data and may risk not meeting the targeted earmark for homeowners assisted with income less than 100% AMI.

Recommendation:

We recommend that internal control be strengthened so that compliance requirements and data received from others are properly understood before completing and submitting federal reports.

DWS’s Response:

DWS agrees with the finding.

Various Federal Agencies

2024-016. Working Capital Reserves in Excess of Federal Guidelines

(Finding Type: Reportable Noncompliance)

Federal Agency: Various

Assistance Listing Number and Title: Various

Federal Award Number: Various

Questioned Costs: Undeterminable

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: 2023-020, 2022-027, 2021-025, 2020-036; 2019-023; 2018-033; 2017-021; 2016-037; 2015-048; 2014-040; 2013-049; 2012 12-51; 2011 11-56

As of June 30, 2024, five divisions within the Department of Government Operations (DGO) held working capital reserves in excess of federal guidelines of at least the amounts that follow:

Fund Description	Excess # of Days in Reserve	Excess Amount in Reserve
Division of Purchasing and General Services		
Cooperative Contract Management	446	\$6,105,636
Federal Surplus Property	1,784	\$230,340
Division of Finance		
Purchasing Card	245	\$687,927
Division of Risk Management		
Workers' Compensation Fund	86	\$1,798,137

The following divisions do not have excess reserves at the internal service fund level; however, the federal oversight agency requires them to be assessed at the service area level, which resulted in excess reserves as follows:

Service Area Description	Excess # of Days in Reserve	Excess Amount in Reserve
Division of Technology Services (DTS)		
Communication Services	47	\$1,285,962
Printing Services	3	\$4,948
Division of Human Resource Management		
Human Resources Field Services	90	\$3,424,432

2 CFR part 200, Appendix V, paragraph G.2, generally allows a working capital reserve as part of retained earnings of up to 60 days' cash expenses for normal operating purposes in each internal service fund. For DTS, the federal oversight agency only allows 45 days. The excess reserves were due to the inherent difficulty of accurately estimating expenses when setting rates. Excess reserves could result in a federal liability since federal programs share an interest in the reserves.

Recommendation:

Depending on the business requirements, we recommend each division within DGO reduce excess working capital reserves within each of the respective funds or service areas.

DGO's Response:*Division of Purchasing and General Services*

Cooperative Contract Management Fund – State Purchasing continues to decrease the administrative fees on state cooperative contracts as each contract expires and is rebid. This is a slow process since State Purchasing has nearly 1,300 cooperative contracts with an average 5-year term. With only about 20% of the contracts expiring each year, this is an ongoing and slow process. Although State Purchasing is allowed under law to collect up to a 1.0% administrative fee on each cooperative contract, currently the average administrative fee is 0.35%. The excess reserves are also being reallocated to other programs. These allocations are intended to both reduce the excess reserve balance and to create efficiencies within the division to better serve state agencies.

Federal Surplus Property Fund – The excess reserves are to be used in relocating Surplus to the Taylorsville State Office Building in March 2025.

Division of Finance

Purchasing Cards Fund (P-Card) – The system implementation was completed at the end of calendar year 2024. State Finance is working to analyze the annual costs of the system, develop a cost allocation strategy between the travel and P-Card programs, and adjust travel rates to cover the travel program's ongoing costs. The P-Card program will then distribute any remaining P-Card rebates to state agencies respective to their spending, if applicable. This effort will eliminate any excess federal reserves in the P-Card fund by the end of fiscal year 2025.

Division of Risk Management

Workers' Compensation Fund – The Division of Risk Management has received approval from the Utah Legislature to reduce rates for workers' compensation in fiscal year 2026. This will take effect on July 1, 2025. The division will also request at the next Legislative session to reallocate excess reserves from the Workers' Compensation Fund to the Property Fund. This will be completed by July 1, 2026.

Division of Technology Services

Communication Services – The Division has worked to reduce the excess reserves and has been successful in decreasing the balance compared to the previous year. In addition, the current year rate was calculated to continue decreasing the excess reserve balance. Next year rates have also been adjusted to further reduce the excess reserve balance. We are working to balance reductions in retained earnings while maintaining services until the products reach the end of their lifecycle.

Network Services – The Division is estimating that excess reserves will decrease as a result of anticipated increases in expenses over fiscal years 2025, 2026, and 2027 to support the migration to a cloud-based platform. We will continue to monitor rates and expenses as the technology environment continually changes.

Printing Services – The Division has set the current year rate to recover costs in order to reduce the excess reserves. The threshold for this program has a small limit for a product with a very high volume. Print demand this year has been low, and we are forecasting this to be fully corrected by the end of fiscal year 2025.

Division of Human Resource Management

Human Resources Field Services – A cost allocation plan was developed to better align expenses with the specific service area supported. Field Service rates were lowered for fiscal year 2025. We anticipate continuing to fine tune rates to bring the Field Service reserve balance down.

2024-017. Working Capital Reserves in Excess of Federal Guidelines

Public Employees Health Plan

(Finding Type: Reportable noncompliance)

Federal Agency: Various

Assistance Listing Number and Title: Various

Federal Award Number: Various

Questioned Costs: Undeterminable

Pass-through Entity: N/A

Prior Year Single Audit Report Finding Number: 2023-021; 2022-028; 2021-026; 2020-039; 2019-026; 2018-036; 2017-023; 2016-039; 2015-050; 2014-042; 2013-050; 2012 12-53; 2011 11-58

As of June 30, 2024, the Public Employees Health Program (PEHP) held working capital reserves in excess of federal guidelines as follows below.

Program	Excess # of Days in Reserve	Excess Amount in Reserve
Medical	5	\$6,413,144
Long-Term Disability	2314	\$46,164,709
Medicare Supplement	146	\$23,716,830

2 CFR part 200, Appendix V, paragraph G.2, generally allows a working capital reserve as part of retained earnings of up to 60 days cash expenses for normal operating purposes. The inherent difficulty of accurately estimating expenses led to excess reserves. Excess reserves could result in a federal liability since federal programs share an interest in the reserves.

Recommendation:

Depending on the business requirements, we recommend that PEHP reduce excess working capital reserves to a level allowed by federal regulations.

PEHP's Response:

State Medical

We agree the PEHP State Medical Program holds excess reserves above the 60-day allowance on June 30, 2024.

Long-Term Disability

We agree the PEHP Long-Term Disability Program holds excess reserves above the 60-day allowance on June 30, 2024.

Medicare Supplement

We agree the PEHP Medicare Supplement Program holds excess reserves above the 60-day allowance on December 31, 2023.

2024-018. USU Extension Extra Services Compensation Program Non-Compliance with Uniform Guidance

(Finding Type: Significant Deficiency, Reportable Noncompliance)

Federal Agency: Various
 Assistance Listing Number and Title: Various
 Federal Award Number: Various
 Questioned Costs: Undetermined
 Pass-through Entity: Various
 Prior Year Single Audit Report Finding Number: N/A

Utah State University’s (University) Internal Audit performed a review of the University’s Extension Service (Extension) within the College of Agriculture and Applied Science. The review determined that Extension’s Extra Service Compensation (ESC) program violates *Uniform Guidance* requirements and University policy, bypasses critical internal controls, and provides employees with additional compensation for extra-service work related to their primary job duties without sponsor approval.

Extension’s mission, under the University’s land grant mission, provides research-based programs and resources to Utah’s population using a mix of local, state, federal and sponsored funding. To incentivize its personnel to apply for grants, Extension created an ESC program that allowed personnel to replace a portion of their primary position institution-funded salary with grant-funded salary. Personnel could then request up to 20 percent of their primary position salary through an ESC secondary position funded with the replaced institution-funded salary. However, Extension’s justified purpose for the ESC secondary position was “caused by and associated with the grant.” In doing so, Extension made it possible to bypass the University’s policy and internal controls for extra-service pay by obscuring the work duties and funding source for the secondary position. Below is an illustrative example from the USU Internal Audit Report of an ESC professor with an institutional base salary of \$50,000:

Payment to Employee Before Receiving Award

Primary Position	Extension Professor
Primary Work Assignment	
<ul style="list-style-type: none"> • Extension (95%) <ul style="list-style-type: none"> ○ Provide the public with research-based information and university resources ○ Manage budgets and personnel 	

<ul style="list-style-type: none"> ○ Pursue internal and external funding opportunities ● Service (5%)
Employee Compensation
Departmental funding <u>\$50,000.00</u>
Total to Employee \$50,000.00

Payment to Employee After Receiving Award

Primary Position	Extension Professor
Primary Work Assignment	
<ul style="list-style-type: none"> ● Extension (95%) <ul style="list-style-type: none"> ○ Provide the public with research-based information and university resources ○ Manage budgets and personnel ○ Pursue internal and external funding opportunities ● Service (5%) 	
Employee Compensation	
Departmental funding	\$40,000.00
Grant funding	<u>\$10,000.00</u>
Total to Employee	\$50,000.00

Secondary Position	ESC
Secondary (ESC) Work Assignment	
<ul style="list-style-type: none"> ● Work caused by and associated with the grant 	
Employee Supplemental Compensation	
Departmental funding	\$10,000.00

\$50,000.00
\$10,000.00
\$60,000.00

(Source: USU Internal Audit Report IAS-23-53)

Uniform Guidance maintains strict requirements with regard to the allowability of compensation, including special consideration for substantial increases, particularly with:

- federal award ratios (2 CFR 200.430(e)),
- institutional base salary charges, including federal award proportionate shares (2 CFR 200.430(h)(2)),
- prior approvals by federal awarding agencies for incidental activities with supplemental compensation (2 CFR 200.430(h)(1)),
- intra-institution consulting within higher education (2 CFR 200.430(h)(3)),
- institutional policy definitions to conclusively determine work resulting in extra service pay (2 CFR 200.430(h)(4), and

- relevant internal controls (2 CFR 200.302(b)(4)).

Internal Audit cites that the ESC program does not comply with *Uniform Guidance*, as well as University policy (Extra-Service Compensation Policy 376), which formalizes the University's approach to compliance with *Uniform Guidance* for these activities.

Internal Audit identified that University personnel did not follow or were unfamiliar with established policies in addition to procedural changes that did not require sufficient level of documentation for proper approvals. Detailed fieldwork by Internal Audit identified instances of questioned costs for funding (both federal and non-federal) in excess of \$25,000. Fieldwork covered the period between January 1, 2020 and June 14, 2023, but also identified evidence of noncompliance as far back as 2009 to 2018. After Internal Audit issued its report in September 2024, the University took action to begin determining the potential financial impact of noncompliance through an external third-party. A report by this external third-party has not been completed as of the date of this finding; therefore, the amount of questioned costs related to federal programs cannot be determined. The University has also taken steps to immediately address policy and control deficiencies across the institution.

Recommendations:

We recommend the University do the following relative to University-wide procedures:

1. Determine the potential financial impact of noncompliance with grant sponsors.
2. Evaluate and improve its policies and required documentation for extra-service compensation.
3. Evaluate and improve its internal controls for sponsored program compensation.
4. Provide adequate training to University personnel regarding sponsored programs compensation compliance.

USU's Response:

Utah State University ("USU") generally agrees with Finding One. As detailed in USU internal audit IAS-23-53, USU Extension established a program to incentivize and reward its personnel to apply for grants (referred to by Extension and within USU internal audit IAS-23-53 as the "incentive program"). While the Uniform Guidance permits incentive programs (see CFR 200.430(f)) and such programs are readily used by universities, the USU Extension incentive program was established and carried out in manner

that violated USU's policy governing extra service compensation ("ESC")¹ and in a manner that bypassed critical internal controls.²

Notably, USU Internal Audit IAS-23-53 tested compliance with USU's extra-service compensation policy but did not review actual costs charged to federal sponsors as this was outside the scope of the audit. Consistent with the recommendations to determine the potential impact of noncompliance, USU worked with an outside consultant to review payment of ESC to all employees working on federal grants. This work identified (1) limited instances when salaries directly charged to sponsored projects included extra service compensation in the base salary and (2) limited instances when extra service compensation was charged to federal sponsors without sponsor approval. The majority of ESC payments made pursuant the USU Extension incentive program was not charged to grant sponsor or included in the institutional base salary charged to the grant.

Accordingly, noncompliance with the Uniform Guidance clauses related to compensation costs³ was limited to a small subset of payments made under the USU Extension incentive program.

Based on these findings, USU agrees with the corrective actions recommended and, as outlined in the corrective action plan summary below, has already completed and/or initiated these actions.

¹ Consistent with federal requirements, USU's extra service compensation program is designed to compensate employees for overload work performed outside the employee's primary work responsibilities. The USU Extension program used this compensation tool to pay incentives to extension faculty. Documentation for ESC payments tested by the audit lacked sufficient information for the approver to determine whether the work was outside the employee's primary work assignment. In other tested instances, the grant work triggering the ESC payment was not outside the employee's primary work responsibilities.

² Extra service payments paid under the USU Extension program were routed through a non-research related approval chain.

³ These clauses include: 2 CFR 200.430(e): Special Considerations (addressing allowability of compensation that increases salary in ratio to the federal award); CFR200.430(h)(2) (providing that charges for work performed on Federal awards during the academic year are allowable at the institutional base salary (IBS) rate); 2 CFR 200.430(i)(1)(ii) (requiring written approval before charging supplemental compensation for incidental activities to federal grant; 2 CFR 200.430(i)(3)(requiring express and written authorization to charge intra-institution consulting to a federal award).

Corrective Action Plan

State of Utah

SPENCER J. COX
Governor

Division of Finance

MARVIN DODGE
Executive Director

VAN CHRISTENSEN, CPA
Division Director

March 28, 2025

Tina Cannon
State Auditor
Office of the Utah State Auditor
Utah State Capitol Complex Suite E310
Salt Lake City, Utah 84114

Dear Auditor Cannon,

Enclosed with this letter is the State of Utah's Corrective Action Plan for the audit findings in the fiscal year 2024 single audit report.

The State's Corrective Action Plan is a compilation of the corrective action plan information provided to us by the applicable state agencies. The Corrective Action Plan document is prepared in conjunction with your fiscal year 2024 single audit. We believe it satisfies the requirements in the Federal Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards §200.511(c) for a corrective action plan.

We appreciate the efforts of the Office of the Utah State Auditor in completing the Single Audit for the State for fiscal year 2024. If you have any questions regarding this Corrective Action Plan, please do not hesitate to contact our office.

Sincerely,

Van Christensen, CPA
Director of Finance

2024-001.Untimely Reconciliations at DABS Led to Audit Adjustments Proposed for State's ACFR

State Agency: Department of Alcoholic Beverage Services

In response to the audit finding regarding the timely recording of data in FINET, reconciliation of financial systems, and resolution of interface issues, the Department of Alcoholic Beverage Services (DABS) has developed a comprehensive corrective action plan. This plan outlines the specific actions we are taking to resolve the identified issues and prevent future discrepancies.

1. **Automating Data Transmittal:** DABS is working closely with the DGO Division of Technology Services (DTS) to develop a C# program that will automate the transmittal of data between the D365 system and FINET. This solution is expected to significantly reduce manual errors and ensure more timely and accurate data entry. The expected date of implementation for this program is May 30, 2025.
2. **Updating Reconciliation Processes:** To improve the reconciliation process and enhance transparency, DABS is updating its current procedures. This includes the use of automated queries and comparison tools to expedite reconciliation activities. These updates are designed to provide faster completion times and greater visibility into the reconciliation process. The expected completion date for these updates is April 30, 2025.
3. **Resolving Interface Issues:** The resolution of interface issues between D365 and FINET requires a more detailed analysis and process improvement. While the full resolution is anticipated to take time, DABS is already implementing key interface changes that will allow us to move forward with confidence. These initial changes will enable more reliable data integration while ongoing efforts address the complexities of the interface. The full resolution is expected by June 30, 2026.

Contact Person: Todd Darrington, DABS Director of Finance, tdarrington@utah.gov

Anticipated Correction Date: 6/30/2025

2024-002.Errors in Financial Reporting Preparation Process

State Agency: Department of Governmental Operations

Many of the identified issues were reclassification errors that did not impact the State's net position, and we have enhanced our review processes to further minimize the likelihood of similar issues in the future. The following responses outline our corrective actions and ongoing improvements in the financial reporting preparation process.

Reclassification of Public Treasurer's Investment Fund Interest

The Public Treasurer's Investment Fund (PTIF) includes both internal participants (State agencies and component units) and external participants (local governments and other entities). At year-end, for ACFR presentation purposes, State Finance must allocate the interest earned by the PTIF between these internal and external participants. Due to the nature of reporting from various PTIF systems, this allocation process is complex, and resulted in an over allocation of interest earnings to the external investment pool for ACFR reporting purposes. This allocation process is for ACFR reporting purposes only and had no effect on individual account balance interest earned or distributed. This allocation error also had no impact on net position.

As reporting capabilities improve, new data becomes available, providing better insights for interest allocation for the ACFR. We value the State Auditor's input in refining this process, which has helped us enhance the clarity and accuracy of our allocations between internal and external participants for ACFR reporting. This improved allocation methodology has been integrated into our annual process, and we will continue to review and incorporate new information as it becomes available.

PTIF Investments Fair Value Adjustment

The State Treasurer's Office recently began investing in complex alternative investment strategies. These new investments require year-end fair value reporting provided by an external investment firm. However, certain year-end investments made by the State Treasurer's Office were not properly reflected in the reports from the external firm, resulting in a portion of the fair value increase being double-counted.

The State Treasurer's Office relied on these reports when reporting year-end fair value amounts to State Finance. In turn, State Finance relies on the expertise of the State Treasurer's Office to ensure the accuracy of fair value reporting.

To prevent this type of error from occurring in the future, the State Treasurer's Office has implemented additional review and reconciliation procedures, including conducting a detailed reconciliation of year-end investment activity to ensure all transactions are accurately reflected in the external investment firm's reports.

Consolidation of School and Institutional Trust Funds Office Statements

While preparing the ACFR, we use draft School and Institutional Trust Funds Office (SITFO) statements, as is standard practice when an entity's final statements will not be available before the completion of the ACFR. SITFO produces several drafts of its financial statements before it issues the final version, and the draft we use for our initial work may be different than the draft available just before the ACFR is issued. We have procedures in place to utilize the most current draft available, and these procedures would have identified the updated SITFO statements in due course. However, due to the timing of the audit, the auditors had access to a more recent draft of the SITFO statements than the one we used for our initial preparation. This timing difference resulted in adjustment to net position classifications on the government-wide statement and had no effect on total net position. We will review our procedures to minimize the possibility of a similar timing difference in the future.

Reclassification of Revenue in Government-wide

During the 2021 General Session, the Legislature combined the Department of Human Services (DHS) and the Department of Health (DOH) into the Department of Health and Human Services (DHHS), with the merger effective July 1, 2022. Prior to the merger, DHS and DOH were reported under two different functions in the ACFR; after the merger, they were reported together under one new function. However, due to the complexity of the consolidation, certain DOH transactions have yet to be migrated to DHHS in FINET, the State's general ledger. The consolidation required changes to the highly manual process of summarizing and converting fund statement revenue to government-wide reported revenue. This adjustment was inadvertently overlooked during the preparation of government-wide revenue for fiscal year 2024, resulting in some DOH revenue being reported under an incorrect function.

Additionally, another error was identified where manual entries were incorrectly placed on the wrong lines within the complex spreadsheet used for this process, causing revenues to be reported under incorrect functions.

Lastly, the activity of a clearing account was not properly eliminated at year-end due to a change in procedures, resulting in an understatement of both expenditures and corresponding revenues.

To prevent these errors from recurring, we have updated our procedures and incorporated additional detailed analytical reviews as part of the year-end close process. These enhancements ensure that clearing account activities are accurately recorded and properly eliminated, and that the conversion of fund statement revenue to government-wide revenue is accurately reflected. These errors had no impact on net position.

Internal Service Fund Activity Elimination for Government-wide statements

Throughout the year, internal service funds record revenues from various governmental funds, while the governmental funds record corresponding expenditures for purchases of internal services such as technology services, motor pool, legal services, and more. When preparing the government-wide statements for the ACFR, governmental funds and internal service funds are consolidated. To avoid overstating revenues and expenses, internal service fund activity must be eliminated during this process.

For fiscal year 2024, the identification of interfund revenues and expenses was handled by a different staff member after having been managed by the same individual for over 20 years. As a result, several interfund transactions were inadvertently overlooked. This misstatement resulted in an overstatement of expenses and corresponding revenues that were not properly eliminated in the government-wide statement, with no impact on net position. To prevent similar issues in the future, we have implemented an additional review step within the year-end close process to ensure that all entries related to the elimination of internal service fund activity are accurate and complete.

Olympic Venue Fund Reclass

The Olympic and Paralympic Venues Grant Fund was established as a special revenue fund by the Legislature in fiscal year 2018. During the legislative process, State Finance works to educate stakeholders that, in accordance with GAAP, a fund cannot be classified as a special revenue fund if the majority of its funding comes from appropriations. While this guidance is often considered during the fund creation process, it may be overlooked in subsequent years as appropriations are made.

This fund did not receive any funding until fiscal year 2024, when it received a late supplemental appropriation in June 2024. At the time, State Finance did not have a mechanism in place to flag special revenue funds when their funding sources changed. To address this, State Finance is currently reviewing all special revenue funds to ensure their funding sources comply with GASB requirements to be properly reported as a special revenue fund. Additionally, year-end procedures have been updated to include a review of each fund's revenue sources to verify they meet the GASB definition for a special revenue fund. Funds no longer meeting the GASB definition will be reclassified appropriately for ACFR reporting.

Higher Education Construction in Progress Transfers

The construction in progress schedule used by the Division of Finance in preparing the ACFR is provided by the Department of Facilities and Construction Management (DFCM). Due to recurring errors identified in this schedule over the years, State Finance conducts reviews of significant projects to verify the accuracy of the reported amounts. This review process is time-consuming, and while it is underway, we provide the

schedule to the State Auditors, even as changes and updates are still being made. As a result, errors were identified by the State Auditors while State Finance was still in the process of reviewing the schedule.

These particular issues occurred because DFCM did not timely document that two buildings were substantially complete in fiscal year 2023, as project engineers did not report substantial completion until fiscal year 2024. To address this, we have begun holding monthly meetings with DFCM to review projects, ensuring both the accuracy of capitalizable costs and the timely identification of substantial completion. This proactive approach will help streamline our year-end review process and improve the accuracy of the construction in progress schedule.

Allocation of Depreciation Expenses

As part of the government-wide statement preparation, depreciation expense should be allocated across various functions. Although the depreciation expense was calculated correctly, it was inadvertently allocated solely to the General Government function instead of being properly distributed among all applicable functions due to an oversight. We have implemented an additional review step within the year-end close process to validate that all entries related to government-wide depreciation expenses allocation are accurate and complete. This reclassification error had no effect on net position.

Overstatement of Construction in Progress for the Department of Alcoholic Beverage Services

Throughout the year, the Department of Facilities and Construction Management (DFCM) records construction in progress for the Department of Alcoholic Beverage Services (DABS) projects. At year-end, in accordance with GAAP, State Finance transfers this activity from DFCM funds to DABS funds for ACFR reporting purposes. In fiscal year 2024, a new DABS fund was introduced to pay DFCM directly for construction costs related to DABS projects. This new process was inadvertently overlooked when preparing the usual year-end entries to transfer activity from DFCM to DABS, resulting in the construction activity being recorded twice.

State Finance has updated year-end procedures to account for transactions involving the new DABS fund, ensuring direct payments to DFCM are properly identified to avoid duplication. This also includes implementing an additional review step within the year-end close process to validate that all entries related to construction in progress are accurate and complete.

2024-003. Incomplete Pharmacy Rebate Reporting and Invoicing

State Agency: Department of Health and Human Services

Federal Agency: Department of Health and Human Services

Following the launch of the Medicaid Provider Reimbursement Information System for Medicaid (PRISM) in April 2023, not all pharmacy files from managed care entities and JCODE drugs properly transmitted to the third-party organization's system. The key pharmacy claims files that needed to interface with the third-party organization's system have now been rebuilt and are undergoing interface testing. After testing, the historic and more current files will be put into production and be transmitted to the third-party organization. Following receipt, the third-party organization will invoice and collect the unbilled rebates. Once this interface issue is resolved, all future required drug utilization data as well as rebate invoices will be sent to manufacturers within the required time frame. All claims received will be invoiced 60 days after the end of the current quarter they are received in, per CMS's rule.

DHHS informed CMS of this issue in August 2024. At that time, CMS said the state was out of compliance and inquired on timelines to come into compliance. The state will provide updates to CMS when the backlogged files have been successfully transmitted and manufacturers have been invoiced.

According to the third-party pharmacy organization, manufacturers were notified about this issue when it was discovered in May 2023 and advised that when the issues with invoicing these rebates is resolved they will be expected to pay the balance due.

Anticipated Correction Date: June 30, 2024

2024-004. Inadequate Procedures to Identify Healthcare Providers with Expired Licenses

State Agency: Department of Health and Human Services

Federal Agency: Department of Health and Human Services

Out-of-state providers and the provider whose license expired during the PHE. During the PHE an expired license report was not properly monitored. Prospectively, DHHS will ensure license expiration notifications are reviewed on a monthly basis. Additionally, DHHS will work with the PRISM contractor to explore pathways to identify all providers (out-of-state and in-state) whose licenses may have already expired. DHHS will follow the current license expiration process and close those providers as appropriate.

Provider initially granted eligibility in the legacy system. In any future event involving data conversion, DHHS will ensure that all relevant data from the existing system is thoroughly collected and reviewed prior to the conversion process. This will help guarantee data integrity and minimize the risk of issues arising during the transition.

2024-005. Required Health and Safety Surveys Not Performed Within Statutory Timeline

State Agency: Department of Health and Human Services

Federal Agency: Department of Health and Human Services

To address this finding (and prior year finding number 2023-008), the Division of Licensing and Background Checks (DLBC), Office of Licensing (OL) took the following corrective action to achieve compliance with required survey time frames:

- Increased Health Facility Licensing fees by 43% to facilitate the hiring of 4 additional staff for the 2025 state fiscal year.
- Dedicated one-time funds for contracting with a third-party surveyor and hired two, time- limited positions to help address the Health and Safety survey backlog in fiscal year 2024 and 2025.
- Continued to work with the DHHS Office of Innovation to review the health facility team's processes to improve efficiencies.

- Organized a separate complaint investigation unit in August 2024 to help expedite complaint and survey completion.

The DBLC, OL will continue to follow through with these additional resources in order to achieve compliance with the required survey timelines. In addition, the OL plans to streamline the writing and reporting procedures while ensuring compliance with CMS guidance. The goal is to shorten the time required to write reports and therefore increase the number of surveys completed.

2024-012.Inadequate SLFRF Subrecipient Monitoring

State Agency: Governor's Office of Planning and Budget

Federal Agency: Department of the Treasury

To help staff at DEQ, DNR, and other agencies managing SLFRF funding improve their understanding of the subrecipient requirements and improve internal controls to ensure compliance with these requirements, GOPB will review its ARPA Reference Guide and other ARPA SLFRF training materials to make sure these materials provide adequate guidance, policies, and procedures to agencies managing ARPA SLFRF funding. GOPB will specifically review guidance on the following:

- Establishing and following agency policies and procedures to ensure compliance with subrecipient monitoring requirements.
- Communicating required federal award information to sub-recipients
- Evaluating each subrecipients risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.
- Monitor subrecipients according to their assessed risk and as required by 2 CFR 200.332.

As part of the process of reviewing these materials, GOPB will work with DEQ and DNR to understand specific areas of guidance, training, or compliance that need to be strengthened. After reviewing and updating the ARPA Reference Guide and other ARPA SLFRF training materials, GOPB will distribute the updated guide to all agencies managing ARPA SLFRF funding. Additionally, GOPB will hold a dedicated training session with both DEQ and DNR, focusing on key areas such as subrecipient compliance requirements, internal controls, risk-based monitoring, Single Audit requirements, and federal compliance standards.

GOPB will also maintain a schedule of regular training, site visits, and reviews to ensure ongoing adherence to monitoring protocols and to reinforce internal controls across all agencies.

Contact Person: Duncan Evans, Senior Managing Director of Budget and Operations, 801-538-1592

Anticipated Correction Date: November 30, 2024

State Agency: Department of Natural Resources

The Department of Natural Resources will review the ARPA Reference Guide and other GOPB ARPA SLFRF training materials provided by Governor's Office of Planning and Budget to ensure our agency is compliant with managing all SLFRF subrecipient requirements and improve internal controls.

DNR will work with GOPB to ensure that key personnel in our agency are doing the following:

- Gaining a better understanding of subrecipient requirements and associated internal controls. Water Resources will review the ARPA Reference Guide and GOPB ARPA SLRF training materials to identify internal control weaknesses so they can be addressed. The Finance Manager, Contract/Grants Analyst and Project Funding Section Manager at the Division of Water Resources will also

meet directly with GOPB by December 16, 2024 to ensure we understand all subrecipient monitoring requirements.

- Establishing and following written policies and procedures to ensure compliance with subrecipient monitoring requirements. The Finance Manager will establish written policies and procedures by December 16, 2024 to ensure compliance with subrecipient monitoring requirements.
- Communicating required federal award information to sub-recipients. Federal award information is included in all ARP A contracts executed by the Division of Water Resources and has been since June 2023. Federal award information associated with ARPA contracts executed before June 2023 were subsequently distributed to those grant applicants so that all grantees have the required federal award information. We will continue to review and ensure we are compliant with this requirement.
- Evaluating each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. Since May 2024 Water Resources has been requiring each ARPA grant applicant to fill out a risk assessment questionnaire. We will continue to assess responses to our grant recipients. The Finance Manager and the Project Funding manager will distribute a risk assessment questionnaire to all other grant recipients who have not filled one out yet so we have this information on file for all of our ARPA grantees. This will be completed by December 16, 2024.
- Monitoring subrecipients according to their assessed risk and as required by 2 CFR 200.332. The Finance Manager and the Project Funding Manager will meet prior to December 16, 2024 to determine if additional monitoring tools are necessary for any of our subrecipients, which could include site visits, technical assistance, or additional monitoring based upon potential risk.

As part of the process of reviewing these requirements, DNR will work with GOPB to understand specific areas of guidance, training, or compliance that need to be strengthened. DNR will work closely with GOPB to ensure specific personnel are trained, focusing on key areas such as subrecipient compliance requirements, internal controls, risk-based monitoring, Single Audit requirements, and federal compliance standards. DNR will ensure that this corrective action plan is implemented and adhered to.

State Agency: Department of Environmental Quality

DEQ is in the process of hiring a new FTE, one of whose responsibilities will be to review and monitor DEQ's compliance with sub-recipient monitoring requirements for ARPA and other federal funds. This will ensure that risk assessments, Single Audit report reviews, and other monitoring activities are completed timely, properly documented, and in compliance with federal requirements.

2024-013. Misunderstanding Caused Improper Spending of Coronavirus State and Local Fiscal Recovery Funds (SLFRF)

State Agency: Governor's Office of Planning and Budget

Federal Agency: Department of the Treasury

GOPB agrees with the finding. We acknowledge that GOEO mistakenly recorded \$559,900 of expenditures to the SLFRF program and identified the same error during the quarterly expenditure review process. Upon identifying this error, GOPB promptly addressed the issue with GOEO so that expenditures could be corrected in the financial system before the end of the FY 2024 closeout and the July 2024 quarterly ARPA SLFRF report.

Corrective Action Plan:

To improve oversight and monitoring of expenditures, GOPB will work closely with GOEO to ensure that all expenditures charged to SLFRF projects comply with program requirements. GOPB will also add content to agency SLFRF trainings about regularly reviewing project ARPA SLFRF Appropriation Tracking and Documentation Forms, which outline the budget, scope, eligibility, and coding for ARPA SLFRF projects. The training will specifically emphasize the importance of each agency establishing effective internal controls for recording and reviewing ARPA SLFRF expenditures. In addition to updating its general training materials, GOPB will provide additional training to agency staff managing new projects so they understand policies and procedures.

Contact Person: Duncan Evans, Senior Managing Director of Budget and Operations, 801-538-1592

Anticipated Correction Date: Completed October 31, 2024

State Agency: Governor's Office of Economic Opportunity

1. GOEO will work with GOPB to ensure that all expenditures charged to SLFRF projects comply with program requirements. GOEO will participate in SLFRF trainings about regularly reviewing project ARPA SLFRF Appropriation Tracking and Documentation Forms, which outline the budget, scope, eligibility, and coding for ARPA SLFRF projects. Implementation of this plan has already begun and will be ongoing.

2. GOEO has improved internal controls. This includes improved review procedures by financial analysts and improved approval procedures by financial managers. Implementation of this plan is complete.

2024-016. Working Capital Reserves in Excess of Federal Guidelines

State Agency: Department of Governmental Operations

Federal Agency: Various

Division of Purchasing and General Services

Cooperative Contract Management Fund – State Purchasing continues to decrease the administrative fees on state cooperative contracts as each contract expires and is rebid. This is a slow process since State Purchasing has nearly 1,300 cooperative contracts with an average 5-year term. With only about 20% of the contracts expiring each year, this is an ongoing and slow process. Although State Purchasing is allowed under law to collect up to a 1.0% administrative fee on each cooperative contract, currently the average administrative fee is 0.35%. The excess reserves are also being reallocated to other programs. These allocations are intended to both reduce the excess reserve balance and to create efficiencies within the division to better serve state agencies.

Federal Surplus Property Fund – The excess reserves are to be used in relocating Surplus to the Taylorsville State Office Building in March 2025.

Contact Person: Windy Aphayrath (waphayrath@utah.gov, 801-957-7138),

Director, Division of Purchasing and General Services

Anticipated Correction Date: June 30, 2025

Division of Finance

Purchasing Cards Fund (P-Card) – The system implementation was completed at the end of calendar year 2024. State Finance is working to analyze the annual costs of the system, develop a cost allocation strategy between the travel and P-Card programs, and adjust travel rates to cover the travel program's ongoing costs. The P-Card program will then distribute any remaining P-Card rebates to state agencies respective to their spending, if applicable. This effort will eliminate any excess federal reserves in the P-Card fund by the end of fiscal year 2025.

Contact Person: Allyson Branch (abbranch@utah.gov, 801-597-3523),

Assistant Director, Division of Finance

Anticipated Correction Date: June 30, 2025

Division of Risk Management

Workers' Compensation Fund – The Division of Risk Management has received approval from the Utah Legislature to reduce rates for workers' compensation in fiscal year 2026. This will take effect on July 1, 2025. The division will also request at the next Legislative session to reallocate excess reserves from the Workers' Compensation Fund to the Property Fund. This will be completed by July 1, 2026.

Contact Person: Rachel Terry (rachelgterry@utah.gov, 801-702-7445),

Director, Division of Risk Management,

Anticipated Correction Date: July 1, 2026

Division of Technology Services

Communication Services – The Division has worked to reduce the excess reserves and has been successful in decreasing the balance compared to the previous year. In addition, the current year rate was calculated to continue decreasing the excess reserve balance. Next year rates have also been adjusted to further reduce the excess reserve balance. We are working to balance reductions in retained earnings while maintaining services until the products reach the end of their lifecycle.

Network Services – The Division is estimating that excess reserves will decrease as a result of anticipated increases in expenses over fiscal years 2025, 2026, and 2027 to support the migration to a cloud-based platform. We will continue to monitor rates and expenses as the technology environment continually changes.

Printing Services – The Division has set the current year rate to recover costs in order to reduce the excess reserves. The threshold for this program has a small limit for a product

with a very high volume. Print demand this year has been low, and we are forecasting this to be fully corrected by the end of fiscal year 2025.

Contact Person: Jake Hennessy (jakehennessy@utah.gov, 385-271-2301),

Executive Finance Director, Department of Government Operations

Anticipated Correction Date: June 30, 2025

Division of Human Resource Management

Human Resources Field Services – A cost allocation plan was developed to better align expenses with the specific service area supported. Field Service rates were lowered for fiscal year 2025. We anticipate continuing to fine tune rates to bring the Field Service reserve balance down.

Director, Division of Human Resource Management

Anticipated Correction Date: June 30, 2025

2024-017. Working Capital Reserves in Excess of Federal Guidelines

State Agency: Public Employee Health Program

Federal Agency: Various

State Medical

Given that the PEHP State Medical Program reserves are just over 60 days, our corrective action plan focuses on continuous monitoring and financial stewardship to ensure compliance with reserve requirements while maintaining the program's financial health. The program was below 60 days on June 30, 2023. There are inherent variabilities and risks associated with medical claims, and reserve fluctuations are expected due to factors such as claim experience, utilization trends, and cost variations. We do not anticipate issuing a refund unless there is a long-term trend of excess reserves over the next three years. PEHP will continue to track performance and adjust necessary to maintain levels.

Long-Term Disability

After the measurement date of June 30, 2024, the PEHP Board of Directors approved a refund of excess reserves of \$3,468,201.87 to the state of Utah. PEHP issued a check on September 12, 2024, and requested State Finance to calculate the federal portion of the

refund and distribute it appropriately to the federal government. Additionally, our corrective action plan focuses on ensuring financial stability while evaluating the impact of recent plan modifications introduced by Senate Bill 21 from the 2025 Utah Legislative Session. The bill introduced specific changes to the LTD program that may impact claims experience and long-term reserve requirements. A thorough actuarial analysis is underway to assess how these modifications will affect future liabilities. While excess reserves still exist, it is prudent to allow for the recent changes to fully materialize before making any further financial adjustments or refunds. PEHP closely monitors how these modifications affect benefit, utilization, and reserve levels.

Medicare Supplement

While PEHP did acknowledge we would issue a refund last year, the overall trend of the Medicare reserve is moving in the opposite direction. In fact, as of December 31, 2024, the preliminary calculated reserve has experienced a notable decrease compared prior year levels due to PEHP's proactive efforts to manage and optimize reserve levels. These efforts have focused on aligning reserves with claim experience, refining cost management strategies, and ensuring long-term sustainability. One such effort relates to recent Medicare Part D Program changes that eliminated the donut hole, reducing plan options from three to one. PEHP is year one of a three-year transition to a single Part D rate that will continue to draw reserves. We believe allowing these changes to fully materialize before any further financial adjustments or refunds is prudent.

Responsible Person:

Rob Dolphin, Chief Finance Officer, URS (rob.dolphin@urs.org)

Anticipated completion date of corrective action plan:

Medical: The expected duration of the corrective action plan for Medical is three years from the baseline date of June 30, 2024, with an anticipated completion date of June 30, 2027.

Long-Term Disability: Given the long-term nature of the LTD claims and the impact of recent legislative changes, the corrective action plan is expected to take up to five years, with a target completion date of June 30, 2029, to allow for credible evaluation and appropriate adjustments.

Medicare Supplement: The expected three-year transition period for financially smoothing the elimination of the Medicare Part D coverage gap (“donut hole”) is anticipated to be concluded by December 31, 2027; however, additional time will be needed for stabilization and evaluation of long-term impacts, resulting in an anticipated corrective action plan completion date of December 31, 2028.

2024-018.USU Extension Extra Services Compensation Program Non-Compliance with Uniform Guidance

State Agency: Utah State University Research & Development

Federal Agency: Various

1) Potential Financial Impact

USU retained [Huron Higher Education Consulting](#) to conduct a Uniform Guidance compliance review of compensation costs charged to federal sponsors. Huron Consulting routinely works with Carnegie R1 institutions to review research compliance issues. Huron conducted a detailed review of an extensive data set for ESC payments made to USU employees, focusing on employees who had salary charged to federal grants or designated as a grant cost share.

This review identified limited instances (1) when salaries directly charged to sponsored projects included extra service compensation in the institutional base salary and (2) when extra service compensation was charged to federal sponsors. Overall, the review found that the vast majority of USU ESC payments (referred to as secondary payments in the internal audit) were not charged to federal sponsored awards.⁴

Out of a total population of \$5.8 million ESC payments reviewed, the unallowed compensation costs related to ESC is approximately \$140,000. USU is in the process of addressing the unallowable compensation costs by removing unallowable charges on open awards and refunding unallowable charges on closed awards.

2) Policies and required documentation for ESC.

ESC Policies: USU is reviewing its policies associated with ESC and institutional base salary (IBS) (both currently defined in USU Policy 376: Extra Service Compensation). A working group has been established that includes the Provost's Office, the President's Office, the Office of Research and Human Resources to develop updated procedures for requesting ESC. Once in place, a new Extra Service Compensation website will be rolled out that will provide guidance on the policy, acceptable uses of extra-service Compensation, and training materials. In conjunction with the website development, a

⁴ Unrelated to the extra service compensation issues that are the subject of the audit, the review also identified a small number of additional errors in salary coding and charges related to 4 employees. These issues will be addressed concurrently.

communication plan to inform stakeholders, especially approving department heads and administrators, will be developed.

Institutional Base Salary Policy and Procedures: USU will create and implement an Institutional Base Salary policy that aligns with federal requirements and industry best practices and specifically defines salary components and the associated pay codes that are included and excluded from an employee's institutional base salary. USU will also update its time and effort certification system with correct institutional base salary mapping.

3) Internal controls for sponsored program compensation

USU will implement the following improvements in its internal controls:

Revised ESC Form. USU has revised its ESC Form to include documentation / calculation demonstrating payment is commensurate with institutional base salary.

Revised ESC Application and Approval Process: USU has already updated the internal ESC review process to include appropriate controls to ensure that all ESC requests are reviewed for Uniform Guidance and USU policy requirements. In this regard, all ESC requests at USU are now reviewed by the Office of Sponsored Programs in the context of all funding sources associated with the applicant (including cost share indexes). This change directly addresses prior routing based on the source of funding which resulted in the Office of Research/Sponsored Programs being bypassed for state-funded ESC requests. Certification language has been inserted at appropriate approval levels to ensure that employees are not receiving ESC related to their primary position/workload.

Improved Definitions of Primary Work Statement: USU has initiated a collaborative effort between Human Resources, the Provost's Office, and the Office of Research to clearly define the primary work assignment for faculty via the role statement or annual work plans to clarify the full workload associated with the IBS.

Increased Compliance Monitoring: After-the-fact monthly review of ESC payments is being collaboratively performed between the Office of Research and Provost's Office. Additionally, USU has reorganized its operations to house post-award research administrators within the Office of Research and added an additional supervisory position to manage post award compliance and management. USU will charge central-post award research administrators with monitoring salary charges to sponsored awards and cost share accounts as a secondary internal control.

Research Incentive Programs: The Office of Research will establish permissible conditions and components for research incentive programs and any and all proposed programs will be reviewed and approved by the Office of Research before implementation.

4) Adequate training to university personnel regarding sponsored programs compensation compliance.

Uniform Guidance training for faculty and staff: USU is building and incorporating new training modules for those managing federal awards which will include guidance on allowable compensation costs and determining institutional base salary.

ESC Training: USU has developed a new required annual training for anyone requesting or approving ESC from all types of funding sources at USU (delivered via USU's Learn Blue system). This training addresses requirements for ESC and employees' role and responsibilities for compliance requirements. Additional training regarding time and effort certification will be developed.

Pay Code Training: USU will provide additional training and education for departmental and payroll staff responsible for coding and processing salary across the institution.

Responsible Person:

Lisa M. Berreau

Vice President for Research

Utah State University

435-797-3509

Anticipated completion date of corrective action plan: Actively in progress and full completion by Jan. 1, 2026.

Summary Schedule of Prior Audit Findings

U.S. Department of Agriculture

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2023-003	2023	USBE Did Not Properly Report All Required Subawards in the Federal Reporting System
State Department			Utah State Board of Education
Status			Partially corrected
Questioned Costs			\$0
Reasons for Recurrence			n/a
Partial Corrective Action Taken			Updated data template used by USBE so current process/procedure for review process is valid. Fully implemented March 1, 2024; however, listed as partial because it was not in place for the majority of the fiscal year.
Corrective Action Planned			No further corrective action needed as it was resolved in March 2024.
Anticipated/Actual Completion Date			March 1, 2024
Contact Person(s)			Brian Ross, Assistant Finance Director, USBE (801-538-7701) Sue Mak, Assistant Finance Director, USBE (801-538-7829)

U.S. Department of Education

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2023-004	2023	Higher Education Emergency Relief Fund Quarterly Reports Not Reviewed for Accuracy
State Department			Utah Tech University
Status			Partially corrected
Questioned Costs			None
Reasons for Recurrence			n/a
Partial Corrective Action Taken			UTU implemented a procedure by April 1, 2024 to review reports of federal financial assistance programs to ensure accuracy.
Corrective Action Planned			UTU established a process to review reports for accuracy. This was done during FY2024; however, it was not implemented for the majority of FY2024 thus the reason for partially corrected.
Anticipated/Actual Completion Date			April 1, 2024
Contact Person(s)			Scott Jensen, Assistant Vice President of Business and Auxiliary Services (435-879-4603) Bryant Flake, Executive Director of Planning and Budget (435-879-4602)

U.S. Department of Health and Human Services

Finding	2020-010	2017	LIHEAP Benefit Overpayments Due to Improper Eligibility Decisions
State Department			Department of Workforce Services
Status			Implemented – corrective action taken. The department has not received a management decision regarding the questioned costs.
Questioned Costs			\$170
Reasons for Recurrence			n/a

U.S. Department of Labor

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2020-029	2020	Incorrect Calculation of Pandemic Unemployment Assistance Benefits Results in Overpayment
State Department			Department of Workforce Services
Status			Implemented – corrective action taken. The department has not received a management decision regarding the questioned costs.
Questioned Costs			\$1,450
Reasons for Recurrence			n/a
Partial Corrective Action Taken			n/a
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			March 31, 2021
Contact Person(s)			Kevin Burt, Deputy Director, Department of Workforce Services, 801-526-9575

U.S. Department of Transportation

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2023-011	2023	Improper Acceptance of Materials Due to Lack of Effective Internal Controls Over the Quality Assurance Program
State Department			Department of Transportation
Status			Not corrected
Questioned Costs			\$0
Reasons for Recurrence			UDOT was given a date of 06/30/2025, to have new processes implemented. This gives UDOT enough time to plug all holes, test the new process, then put into production.
Partial Corrective Action Taken			Introductory training will begin this fall. Central Materials is coordinating with the Region trainers to ensure the technicians get the hands-on training needed prior to starting the certification tests. The Materials MW database will only allow those who are certified to input test results, which will help ensure technicians are certified prior to testing.
Corrective Action Planned			Training of technicians and reviewers for the Quality Assurance Program (QAP) is planned.
Anticipated/Actual Completion Date			June 2025
Contact Person(s)			Carmen Swanwick, Project Development Director, (801) 232-7802
Finding	2023-012	2023	Noncompliance Resulting from the Failure to Implement Effective Internal Controls Over Value Engineering Program
State Department			Department of Transportation
Status			Not corrected
Questioned Costs			\$0
Reasons for Recurrence			UDOT was given a date of 06/30/2025, to have new processes implemented. This gives UDOT enough time to plug all holes, test the new process, then put into production.
Partial Corrective Action Taken			UDOT is currently working on updating the Value Engineering (VE) manual to combine with the Roadway Design Manual and developing additional training for designers that outlines processes and procedures to help identify when VEs are needed and that encourages project teams to identify those needs as early as possible in the project timeline.
Corrective Action Planned			FHWA will work with UDOT's VE Coordinator to come up with a plan to address the findings. FHWA suggests that UDOT provide supporting documentation with the submittal of the Annual Report and flag any project that exceeds or comes close to exceeding the VE threshold.
Anticipated/Actual Completion Date			June 2025
Contact Person(s)			Carmen Swanwick, Project Development Director, (801) 232-7802
Finding	2023-013	2023	Improper Reimbursement of Utility Expenditures Due to Lack of Effective Internal Controls
State Department			Department of Transportation
Status			Not corrected
Questioned Costs			\$27,559
Reasons for Recurrence			UDOT was given a date of 06/30/2025, to have new processes implemented. This gives UDOT enough time to plug all holes, test the new process, then put into production.
Partial Corrective Action Taken			The Utility Manager is working on updating the policies and guidelines regarding these Letter Agreements. This is a priority for both the Utility Manager and UDOT. For the prepayment issue, our Preconstruction department is leading an education effort for the Region Utility Managers on the application of these types of agreements.
Corrective Action Planned			FHWA will work with UDOT's Utility Division to review their internal control policies and will review the costs in question that were identified during the audit.
Anticipated/Actual Completion Date			June 2025
Contact Person(s)			Carmen Swanwick, Project Development Director, (801) 232-7802

U.S. Department of the Treasury

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2020-031 (See also 2021-018)	2020	Weaknesses in Monitoring of Local Governments' Coronavirus Relief Fund Activity

Status			Partially corrected – repeated in current fiscal year as 2024-014
Questioned Costs			\$0
Reasons for Recurrence			GOPB was not notified of the finding until March 2024 and could not implement the corrective action plan for FY2024.
Partial Corrective Action Taken			In April 2024, GOPB hired an additional fiscal grant manager to primarily focus on documenting and reconciling obligations and expenditures. As part of this process, GOPB is collecting and reconciling contracts, grant agreements, interagency agreements, and other obligating documents for ARPA SLFRF projects.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-014.
Anticipated/Actual Completion Date			October 31, 2024
Contact Person(s)			Darcy Jaimez, Fiscal Grant Manager, 385-377-3373
Finding	2023-019 (See also 2022-022)	2021	Suspension and Debarment Not Verified Prior to Awarding Contracts
State Department			Governor's Office of Planning and Budget
Status			Partially corrected – The U.S. Treasury sent a decision letter dated November 21, 2024 sustaining the findings and accepting the Corrective Action Plan.
Questioned Costs			\$0
Reasons for Recurrence			The finding was not implemented for the majority of the year, so the status is considered Partially Corrected.
Partial Corrective Action Taken			GOPB has reviewed its September 2022 guidance on requirements for SLFRF agreements and reissued the document to remind agencies of the need to perform timely suspension and debarment checks. GOPB has also provided training to agencies and reminded them to include a suspension and debarment clause in contract agreements. GOPB has updated the reference guide for agencies with standardized language about suspension and debarment checks to be used in new agreements. GOPB has included this review in its regular monitoring activities and sample contract agreements to verify inclusion of the appropriate contractual provisions.
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			April 30, 2024

General Findings

	Finding	Initial Year	Status of Findings and Questioned Costs
Finding	2020-041	2019	Cost Allocation Plan Implementation Errors
State Department			Department of Workforce Services
Status			Implemented – corrective action taken. The department has not received a management decision regarding the questioned costs.
Questioned Costs			\$108,176
Reasons for Recurrence			n/a
Partial Corrective Action Taken			n/a
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			June 30, 2021
Contact Person(s)			Nathan Harrison, Executive Finance Director, 801-526-9402
Finding	2022-027 - DHRM	2011 (2022 was initial year for this part of finding)	Working Capital Reserves in Excess of Federal Guidelines --Human Resources Core Services
State Department			Department of Government Operations, Division of Human Resource Management
Status			Implemented – corrective action taken
Questioned Costs			Undeterminable
Reasons for Recurrence			n/a
Partial Corrective Action Taken			n/a
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			June 30, 2023
Contact Person(s)			John Barrand (jbarrand@utah.gov), Director, Division of Human Resource Management
Finding	2022-027 - DTS	2011	Working Capital Reserves in Excess of Federal Guidelines --Printing Services --Network Services
State Department			Department of Government Operations, Division of Technology Services
Status			Printing Services: Partially corrected – repeated in current fiscal year as 2024-016 Network Services: Partially corrected – repeated in current fiscal year as 2024-016
Questioned Costs			Undeterminable
Reasons for Recurrence			Printing Services - Print demand has been low this year, but we expect this to be fully corrected by the end of FY25. Network Services – The migration to a cloud-based platform, which is expected to incur significant expenses over the next several years and contribute to a decrease in reserves, is not yet complete.
Partial Corrective Action Taken			Printing Services: The Division set the current year rate to recover costs in order to reduce the excess reserves. Network Services: Significant expenses were incurred in FY24 and will be incurred over the next few years to support the migration to a cloud-based platform. Expenses in FY24 helped reduce the reserve overage.
Corrective Action Planned			Printing and Network Services - Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			Printing Services - June 30, 2025 Network Services - June 30, 2026

Finding	2022-027 - Pur	2011	Working Capital Reserves in Excess of Federal Guidelines --State Surplus Property
State Department			Department of Government Operations, Division of Purchasing and General Services
Status			Partially corrected
Questioned Costs			Undeterminable
Reasons for Recurrence			The correction was not implemented for the majority of the year, so it is considered Partial.
Partial Corrective Action Taken			The correction was implemented as described in the Corrective Action Plan as of June 30, 2024, but it is considered Partial since it wasn't implemented for the majority of the year.
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			June 30, 2024

Finding	2022-027 - Risk	2011	Working Capital Reserves in Excess of Federal Guidelines --Property
State Department			Department of Government Operations, Division of Risk Management
Status			Implemented – corrective action taken
Questioned Costs			Undeterminable
Reasons for Recurrence			n/a
Partial Corrective Action Taken			n/a
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			June 30, 2023
Contact Person(s)			Rachel Terry (rachelgterry@utah.gov), Division Director, Division of Risk Management
Finding	2023-001	2022	Errors in Annual Financial Reporting Preparation Process
State Department			Department of Government Operations, Division of Finance
Status			Partially corrected – repeated in current fiscal year as 2024-002
Questioned Costs			None
Reasons for Recurrence			Change in key Division of Finance financial reporting team staff who prepare schedules for the Annual Comprehensive Financial Report (ACFR).
Partial Corrective Action Taken			The Division of State Finance implemented process improvements by refining workflow procedures and enhancing review practices. Additionally, updates were made to reporting tools to improve data accuracy and streamline information flow.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-002.
Anticipated/Actual Completion Date			June 30, 2025
Contact Person(s)			Patricia Nelson (patriciarnelson@utah.gov), Assistant State Comptroller, State Division of Finance
Finding	2023-002	2023	Bank Reconciliation Not Performed Timely
State Department			Department of Government Operations, Division of Finance
Status			Implemented – corrective action taken
Questioned Costs			None
Reasons for Recurrence			n/a - The reconciliation for the current year was provided to the auditors timely in October 2024. This new detailed consolidated reconciliation process will continue to be used each yearend.
Partial Corrective Action Taken			n/a
Corrective Action Planned			n/a
Anticipated/Actual Completion Date			December 31, 2023
Contact Person(s)			Patricia Nelson (patriciarnelson@utah.gov), Assistant State Comptroller, State Division of Finance
Finding	2023-020 - DHRM	2011 (2023 was initial year for this part of finding)	Working Capital Reserves in Excess of Federal Guidelines --Human Resources Field Services
State Department			Department of Government Operations, Division of Human Resource Management
Status			Partially corrected – repeated in current fiscal year as 2024-016
Questioned Costs			Undeterminable
Reasons for Recurrence			Rates are developed and approved by the committee almost a year prior to the beginning of the fiscal year they affect. This results in a long adjustment period in order to make corrections and see the results of implementation.
Partial Corrective Action Taken			A cost allocation plan was developed to better align our expenses with the specific service area supported. Field Services rates were lowered for FY25. We anticipate continuing to fine tune our rates to bring the Field Services reserve balance down.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			June 30, 2025
Contact Person(s)			John Barrand (jbarrand@utah.gov), Director, Division of Human Resource Management

Finding	2023-020 - DTS	2011	Working Capital Reserves in Excess of Federal Guidelines --Communication Services --Mainframe Services
State Department			Department of Government Operations, Division of Technology Services
Status			Communication Services: Partially corrected – repeated in current fiscal year as 2024-016 Mainframe Services: Partially corrected
Questioned Costs			Undeterminable
Reasons for Recurrence			Communication Services: The current year rate was calculated to continue decreasing the excess reserve balance, but the reduction was not substantial enough to bring the service into compliance. Mainframe Services – In FY24, we ended this service and a \$1.4M rebate was issued to agencies. The mainframe had a remaining retained earnings balance of \$88k, which will be rolled into the Network retained earnings. This correction will be considered Partial until the retained earnings balance is resolved.
Partial Corrective Action Taken			Communication Services: For FY25, a reduction of \$498k was calculated for intentional under-recovery. In FY26, the rate was further adjusted to reduce by \$455k. Our approach is more conservative due to the rapid decline in product utilization. We are balancing reductions in retained earnings while maintaining services until the end of life for the products offered.
Corrective Action Planned			Mainframe Services – n/a Communication Services - Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			Mainframe Services - The remaining retained earnings balance will be resolved. Communication Services - June 30, 2026
Contact Person(s)			Mainframe Services - June 30, 2024 Jake Hennessy (jakehennessy@utah.gov), Finance Director, Department of Government Operations and Leno Franco (lenof@utah.gov), Assistant Finance Director, DTS/DGO
Finding	2023-020 - Fin	2011 (2022 was initial year for P-card part of finding)	Working Capital Reserves in Excess of Federal Guidelines --Purchasing Card
State Department			Department of Government Operations, Division of Finance
Status			Partially corrected – repeated in current fiscal year as 2024-016
Questioned Costs			Undeterminable
Reasons for Recurrence			State Finance implemented a new travel and expense reporting system for all state agencies. This system will simplify travel approvals, travel reimbursements, and reduce the administrative burden for the purchasing card (P-Card) expense reports on state agency personnel. To cover system implementation costs and ongoing systems operating costs, State Finance elected not to distribute the rebates received from U.S. Bank related to state agency P-Card spending for calendar years 2021-2024. Rebates were still sent to participating entities external to the primary government.
Partial Corrective Action Taken			The system implementation was completed at the end of calendar year 2024.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			June 30, 2025
Contact Person(s)			Allyson Branch (abbranch@utah.gov), Manager of Accounting Operations, State Division of Finance

Finding	2023-020 - Pur	2011	Working Capital Reserves in Excess of Federal Guidelines --Cooperative Contract Management --Federal Surplus Property
State Department			Department of Government Operations, Division of Purchasing and General Services
Status			Cooperative Contract Management: Partially corrected – repeated in current fiscal year as 2024-016 Federal Surplus Property: Partially corrected – repeated in current fiscal year as 2024-016
Questioned Costs			Undeterminable
Reasons for Recurrence			Cooperative Contract Management - Public entities in Utah rely on the Division of Purchasing and General Services (State Purchasing) to maintain the cooperative contract program to help with public procurement in Utah. The usage of state cooperative contracts by public entities increased between 2021-2023 resulting in a corresponding increase in the collection of administrative fees. State Purchasing continues to decrease the administrative fees on state cooperative contracts as each contract expires and is rebid. This is a slow process since State Purchasing has nearly 1,300 cooperative contracts with an average 5-year term. With only about 20% of the contracts expiring each year, this is an ongoing and slow process. Although State Purchasing is allowed under law to collect up to a 1.0% administrative fee on each cooperative contract, currently the average administrative fee is 0.35%. Federal Surplus Property - Surplus Property anticipates relocating in the Spring of 2025. At that time, Federal Surplus will use excess reserve funds to move and furnish the new location.
Partial Corrective Action Taken			Cooperative Contract Management – State Purchasing requested the Utah Legislature to appropriate out a portion of excess reserves in the Cooperative Contract Management fund in fiscal year 2024. The calculation of the federal portion of this transfer was submitted to Cost Allocation Services for review and approval. State Purchasing's reallocation request is intended to support equipment upgrades, process improvements, and compliant technologies. Federal Surplus Property – The relocation of Surplus Property is anticipated in the Spring of 2025. At that time, Federal Surplus will need to use their working capital reserve funds for the costs of moving to and furnishing their new location. These additional expenses should eliminate these excess reserves by the end of FY 2025.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			Cooperative Contract Management - June 30, 2025 Federal Surplus Property - June 30, 2025
Contact Person(s)			Windy Aphayrath (waphayrath@utah.gov), Division Director, Division of Purchasing & General Services
Finding	2023-020 - Risk	2011	Working Capital Reserves in Excess of Federal Guidelines --Workers Compensation Fund
State Department			Department of Government Operations, Division of Risk Management
Status			Partially corrected – repeated in current fiscal year as 2024-016
Questioned Costs			Undeterminable
Reasons for Recurrence			The insurance premiums paid by the Division of Risk Management to the insurance carrier were below projected premiums.
Partial Corrective Action Taken			The Division of Risk Management did not request an increase in rates for fiscal year 2024 for the Workers Compensation Fund.
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-016.
Anticipated/Actual Completion Date			July 1, 2026
Contact Person(s)			Rachel Terry (rachelgerry@utah.gov), Division Director, Division of Risk Management

Finding	2023-021	2011	Working Capital Reserves in Excess of Federal Guidelines --Long-term Disability --Medicare Supplement
State Department			Public Employees Health Plans
Status			Not corrected – repeated in current fiscal year as 2024-017
Questioned Costs			Undeterminable
Reasons for Recurrence			<p>Long-term Disability Projecting claims for this program is challenging. The frequency of claims in this program can vary widely due to unpredictable factors such as economic conditions, changes in employment rates, or shifts in public health (e.g., pandemics). Estimating future claim rates is inherently uncertain. The program has experienced low disability claims in recent years from factors such as a healthier population which leads to lower incidence of disability claims. Utah's economic stability with low unemployment can reduce the incidence of stress-related or financially motivated disability claims as individuals are more likely to be employed and less likely to claim disability benefits. PEHP's medical insurance program provides access to quality health care. Early intervention and access to rehabilitation services can prevent disabilities from becoming long-term. In the 2023 Utah Legislative Session, HB105 was passed to create a three-year pilot program to fully benefit public employees with mental disabilities. With the passage of this new benefit, there is limited or historical data to base forecasts, and it is challenging to estimate future claims accurately. Continued favorable investment income also contributed to the increase of excess reserves.</p> <p>Medicare Supplement (for people age 65 and older) Setting premium rates and projecting Medicare Supplement health care claims involves forecasting a wide range of costs, such as hospital and physician, prescription drugs, and durable medical equipment. The COVID-19 pandemic did not increase claim expenses enough to reduce excess reserves below the federal allowed amount of 60 days. PEHP offers a Medicare Part D plan as part of the Medicare Supplement program that provides coverage for a wide range of prescription drugs. Demand and utilization of pharmacy benefits can fluctuate significantly in the Part D program and some drop in demand and price of some specialty drugs have increased reserves within the program. An aging population, advances in medical treatments leading to more seniors requiring more complex and costly care, and changes in health care policies, regulation, reimbursements, and pharmacy costs can also impact health care costs. The program is susceptible to higher potential fraud since it follows the lead in the services covered and the providers paid. The program has been fortunate to find fraudulent activities before Medicare has that could have impacted reserve levels. Reserves above 60 days ensures programs can meet the financial obligations of the policyholders. PEHP implemented a rate stabilization with no premium increases for 2024 for policyholders to help reduce excess reserves despite increases in medical costs.</p>
Partial Corrective Action Taken			None
Corrective Action Planned			Planned corrective action is described in the current year's Corrective Action Plan in finding 2024-017.
Anticipated/Actual Completion Date			June 30, 2025
